Preface

The DeKalb County Board of Education (also referred to as the Board) is a policy making body and is obligated to act in the best interest of all the people. To carry out its function of providing good schools for the students, the Board has the responsibility of prescribing rules and regulations for the conduct and management of the schools and for maintaining a uniform and effective system throughout the county.

Most policies and regulations included are standard in Alabama and elsewhere and have been in effect for many years. The Board must adhere to laws and guidelines set forth by the state and federal courts, the Code of Alabama, the Legislature, the State Board and State Department of Education.

Policies are developed in order to give continuity, stability, and consistency of Board action and to insure that fairness and justice are administered on an equitable basis.

With new legislation taking place each year, handbooks will be revised and amended as necessary. Any policies previously approved by the Board and not amended or rescinded are still in effect.

Federal funds will only be requested to meet immediate cash needs for reimbursement not covered by prior receipts and anticipated disbursements that are generally fixed, such as monthly program salaries and benefits. Disbursements will be made within twenty business days after receipt of funds.

The Chief School Financial Officer will maintain financial records that account for the receipt, obligation, and expenditure of each federal program fund. Cash balances for each federal program fund and for the aggregate of all federal program funds will be monitored daily by the Chief School Financial Officer or designee.

Board procedures to minimize the cash balances in federal program funds are expected to prevent the aggregate cash balances of federal program funds from earning \$500 or more for the fiscal year if maintained in interest-bearing accounts. The federal program funds, with the exception of Child Nutrition Program funds, will not be maintained in an interest-bearing bank account if the Chief School Financial Officer determines that banking requirements for minimum or average balances are so high that an interest-bearing account would not be feasible. Federal program funds will be maintained in insured checking accounts that are subject to the state requirements for public deposits under the SAFE program.

- 3.9.2 Determination of Allowable Costs – Before instituting a financial transaction that will require the expenditure of federal funds the federal program director and the Chief School Financial

Officer or designee will determine that the proposed transaction meets the requirements for allowable costs for the federal program. Actions to determine allowable costs will assure that:

- The proposed expenditure is reasonable and necessary for the federal program;
- The proposed expenditure is consistent with procedures for financial transactions of the board including:
 - Purchase order approval procedures;
 - Contract review and approval procedures;

The board’s travel policy provides for reimbursement and payments for travel costs of employees paid from federal funds that is consistent with the travel costs for board employees paid from state or local funds.

3.9.4 Conflict of Interest Policy – Generally, a conflict of interest exists when a board member, board employee, or agent of the board participates in a matter that is likely to have a direct effect on his or her personal and financial interests. A financial interest may include, but is not limited to, stock ownership, partnership, trustee relationship, employments, potential employment, or a business relationship with an applicant, vendor, or entity. A board member, board employee, or agent of the board may not participate in his or her official capacity in a matter that is likely to have direct predictable effects on his or her financial interests.

A board member, board employee, or agent of the board will abide by the Federal and state laws and regulations that address conflict of interest standards. In general, the Federal rules provide that:

No employee, officer, or agent of the board shall participate in selection, or in the award or administration of a contract supported by Federal funds if he or she has a real or apparent conflict of interest. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs, or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from the firm considered for a contract. The board’s officers, employees, or agents will neither solicit nor accept gratuities, favors or anything of monetary value from contractors, potential contractors, or parties to subcontracts.

The board’s conflict of interest policies include adherence to the Alabama Ethics Law, which defines conflict of interest as:

A conflict on the part of a public official or public employee between his or her private interests and the official responsibilities inherent in an office of public trust. A conflict of

interest involves any action, inaction, or decision by a public official or public employee in the discharge of his or her official duties which would materially affect his or her financial interest or those of his or her family members or any business with which the person is associated in a manner different from the manner it affects the other members of the class to which he or she belongs.

A board member, board employee, or agent of the board may not review applications, proposals, or participate in the evaluation or selection process where his or her participation in the review process would create the appearance that he or she is: (a) giving preferential treatment; (b) losing independence and impartiality; (c) making decisions outside official and appropriate channels; or (d) harming the public's confidence in the integrity of the board.

Situations and circumstances presenting an actual conflict of interest or the appearance of a conflict of interest should be brought to the immediate attention of the superintendent. A board employee, board member, or agent of the board who has knowledge of a possible conflict of interest should identify the conflict and notify the superintendent. The superintendent will document his or her actions related to the reported conflict of interest. Resolution can consist of disqualification, recusal, waiver, or other appropriate measures. Appropriate measures may include reporting a conflict of interest to the State Ethics Commission, the Alabama State Board of Education, or the appropriate federal agency.

3.9.5 Procurement Policy – The board will follow state laws for the procurement of property and services. The primary state procurement laws for Alabama school boards are:

- Alabama Competitive Bid Laws (**Chapter 13B of Title 16, Code of Alabama 1975**);
- Joint Information Technology Purchasing Agreement (**Chapter 13B of Title 16, Code of Alabama 1975**); and,
- Public Works Law (**Title 39, Code of Alabama 1975**).

To the extent allowed by state laws, the board will utilize state, local, regional, and national purchasing agreements where appropriate for the procurement or use of goods and services. All procurement transactions are subject to the board's Conflict of Interest Policy and the procurement decisions of the board will:

- Avoid acquisition of unnecessary or duplicative goods and services;
- Use the most economical and efficient approach for acquisitions;
- Award acquisition contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of the proposed procurement;
- Consider contractor integrity, compliance with public policy, record of past performance, and financial and technical resources prior to awarding procurement contracts;
- Maintain records sufficient to document the history of the procurement; and,
- Conduct procurement transactions in a manner that provides full and open competition.

Procurement transactions for Federal programs and child nutrition programs that are not subject to the state procurement laws, but exceed the aggregate amount of the federal micro-purchase threshold, will be obtained by utilizing price or rate quotes from two or more qualified sources. State procurement laws include requirements that comply with the other Uniform Administrative Requirements for procurement of property and services.

The board will request proposals for those professional service contracts (excluding architectural and engineering services) that are exempt under state procurement laws if the contracts exceed \$150,000 and will be paid from federal or child nutrition program funds. The board will utilize a team of three or more qualified individuals to conduct a technical evaluation of proposals received and for selecting recipients. - F. Procedure: All grievances shall be handled in accordance with the following procedure:

A. Level One (Informal Procedures).

(It is acknowledged that the teacher/Principal or assistant Principal shall be the student's immediate supervisor - see Student Handbook regarding student grievances). The aggrieved person and his supervisor/Principal shall confer on the grievance with a view toward arriving at a mutually satisfactory resolution of the complaint. At the conference, the aggrieved person may appear alone or may be accompanied by a mutually accepted professional staff member. Supervisors/Principals shall be accorded the same privilege.

B. Level Two (Formal Procedures)

- 1. If, as a result of the discussion between the grievant and supervisor or Principal, the matter is not resolved to the satisfaction of the grievant, he/she shall set forth said grievance in writing to the supervisor/Principal within five (5) days following the informal conference specifying:
 - a. The nature of the grievance.
 - b. The nature or extent of the injury, loss or inconvenience.
 - c. The results of previous discussions, and
 - d. Dissatisfaction with decisions previously rendered.

The immediate supervisor/Principal shall communicate his decision to the aggrieved in writing within three (3) days of receipt of the written grievance.

- 2. Within five days after receipt of the decision at level one, the aggrieved party may appeal to the next administrative level. The Superintendent shall set a time within 10 working days for the parties in interest to discuss the grievance. He shall provide his written decision together with the reasons for the decision, to all parties within the same 10-day period.

3. Within five (5) days after receipt of the decision at level two, the aggrieved party may appeal to the Board of Education. All hearings and appeals shall be conducted according to the following procedures:

The aggrieved party shall file a written request with the Superintendent for a hearing before the Board of Education. The request shall contain a detailed description of the grievance as well as previous action or inaction relative to the grievance. After receipt of the written request, the Board of Education shall set a time, date, and place for the hearing within (10) days from receipt of the request or the next Board meeting, whichever comes first. The hearing shall be scheduled no later than 30 days from date of request. All parties in interest shall be given ten (10) days written notice of the time, date, and place for a hearing. The Board of Education shall reach a decision concerning the grievance within (10) days after the hearing and shall convey the decision in writing to all parties in interest.

4. In the event the aggrieved person is not satisfied with the disposition of the grievance by the Board of Education, he may appeal such decision to the appropriate authorities as provided by the law or seek recourse through a state or federal court system. Unless the grievance is appealed within the appropriate time given in each step, it shall be deemed to have been settled and the employee shall have no further right with respect to said grievance. In the event of a mutually agreed upon postponement, at any level, the grievance procedure shall begin again at that level within five (5) days of postponement and, in no case, later than 30 days.

4.10.3 Student Complaints and Grievances – Complaints, grievances, and requests for corrective action may be brought to the attention of the Board by or on behalf of students with respect to academic, athletic, extracurricular, or other non-disciplinary matters, issues, and concerns only after reasonable efforts to resolve the matter at the school and administrative levels have been exhausted and in accordance specified in the Code of Conduct. The Superintendent is authorized to develop specific procedures that will provide for fair consideration and orderly review of such complaints and grievances. Such procedures will not unreasonably burden or delay the presentation or processing of the complaint or grievance and will be subject to review and approval by the Board. Administrative judgments concerning academic or curricular matters or participation in extracurricular activities may be set aside by the Board only upon a showing that the action or decision in question is arbitrary and capricious, fundamentally unfair, or that it violates Board policy or the student’s legal rights.

4.10.4 Student Disciplinary Matters – In the event the student is not satisfied with the disciplinary action, the student may appeal to the principal. If the student is not satisfied with the action taken by the principal, he/she may appeal to the Superintendent of Education. If the student is not satisfied with the action taken by the Superintendent, he/she may appeal to the County Board of Education. The decision of the Board will be final.

4.11 Risk Management

The Board may obtain such liability and other forms of insurance or enter into such risk management agreements, pools, cooperatives, and like arrangements, agreements, or undertakings as it deems necessary and appropriate to meet legal requirements or to protect the Board, its employees, or its property from risk of loss.

4.12 *Emergency Closing of Schools*

The Superintendent is authorized to close schools if such action is warranted by weather conditions or other circumstances that pose a risk to the safety and welfare of students and employees, or that render meaningful instruction impossible (e.g., loss of power or other utility services). If practical, the Superintendent shall make the decision to close schools after consulting with appropriate community agencies, including the Board of Education, EMA, and staff. Public announcement and releases to news media shall be made by the Superintendent. In case of severe weather, the official announcement for school closings may be heard over area radio and television stations. Households and staff with correct phone numbers in the student information system will be contacted through School Messenger.

In the event of an extended emergency school closure, the Superintendent will provide employees with work expectations during the time of the closure. Certified employees and classified employees who meet work expectations will receive compensation during the time of the closure for the completion of these assigned tasks.

4.13 *Technology Use and Internet Safety*

- 4.13.1 Educational Technology – DeKalb County schools will develop and follow a SDE approved, written plan for utilization of educational technology developed annually with committee input. The System Plan will be a composite of the school plans. Plans must show how technology is to be integrated into the curriculum, school technology needs, utilization of equipment and supplies, budgeting process, community involvement, personnel training, and anticipated impact for teachers and students. An assessment of effectiveness will be made toward the end of the school year. Each school will prepare a local technology budget for expenditure of technology allocations no later than September 1 each year. This budget should be in line with the school's technology plan. Technology funds should be spent in line with quotes/bids no later than six weeks after the allocation is made even though accounting guidelines allow for a later date. This is to ensure that funds will benefit the current year's students, especially seniors.
- 4.13.2 Access to Technology Resources – The Board permits restricted and conditional access to and use of its technology. Such access and use is restricted to employees, students, and other persons who are engaged in bona fide educational and administrative activities that serve and are consistent with identified educational objectives or authorized support functions. The Board also reserves the right to place conditions on, restrict, or prohibit the use of personally-owned technology resources on its property. The term technology refers to all forms of digital hardware, devices, software, or accounts. Although cell phones and smart phones can be used for many of the same activities as other forms of technology, additional rules apply to the possession and use of these devices. This policy applies to all technology, regardless of ownership, used on school property during school hours or during other school-related activities. It also applies to the use of Board-owned technology regardless of location or time of day. The Superintendent is authorized to develop Acceptable Use Practices (AUP) for employees, students, and other persons, as well as other rules and regulations having to do with technology use. Employees, students and other persons using the Board's technology resources, using personally-owned devices or accounts on Board property, or using personally-owned accounts in connection with their role as an employee or student are expected to read and agree to these rules and regulations prior to their technology use, whether or not a signed agreement is required.
- 4.13.3 Legal and Ethical Use of Technology Policy – To ensure that students receive a quality education and employees are able to work in a professional and intellectually stimulating

environment, DeKalb County Schools will provide all students and employees with the opportunities to access a variety of technology resources. The creation of a large and varied technology environment demands that technology usage be conducted in legally and ethically appropriate ways, consistent with the instructional goals of DeKalb County Schools. Thus, it is the intention of DeKalb County Schools that all technology resources will be used in accordance with any and all school system policies and procedures, as well as local, state and federal laws and/or guidelines governing the usage of technology and its component parts. Additionally, it is implied that all students and employees of DeKalb County Schools will use the provided technology resources so as not to waste them, abuse them, interfere with or cause harm to other individuals, institutions or companies. DeKalb County Schools' technologies may not be utilized for personal gain.

- 4.13.4 Restrictions or Loss of Privileges-Persons who violate any Board policy, rule, or regulation regarding technology use may be denied the use of the Board's technology resources, may be prohibited from bringing personally-owned technology onto Board property, and may be subject to additional disciplinary action. Persons are responsible for their behavior as it relates to technology, and should therefore, keep their login and passwords secure at all times. Every employee is responsible for reporting any suspected violations of DeKalb County Schools' policy to the Technology Coordinator/Manager. Example, if you are on the receiving end or know of an inappropriate email, it is your responsibility to report the email.
- 4.13.5 Ownership of Resources and Expectations of Privacy – All technology resources, including but not limited to, network and Internet resources, accounts, electronic systems, computers or other devices owned, leased, or maintained by the Board are the sole property of the Board. Authorized Board personnel may, at any time and without prior notice, access, search, examine, inspect, collect, or retrieve information of any kind from the Board's technology resources, including computer or related equipment, files, and data to determine if a user is in violation of any of the Board's policies, rules, and regulations regarding access to and use of technology resources, for or in connection with any other matter or reason related to the safe and efficient operation, maintenance, or administration of the school system, or for any other reason not prohibited by law. Users of school system technology resources have no personal right of privacy or confidentiality with respect to the use or content of such resources. In addition, school officials may read, examine, or inspect the contents of any personally-owned technology devices upon reasonable suspicion that the contents or recent utilization of the device contains evidence of a violation of Board Policy, the Code of Conduct, Acceptable Use Practices, or other school or system rules or regulations. The Board of Education will cooperate with any properly executed request from any local, State, or Federal law enforcement agency or civil court.
- 4.13.6 Internet Safety- Students are not to access inappropriate material. Students are not to electronically communicate with individuals for non-instructional purposes. This includes e-mail correspondence, chat rooms, instant/real time messenger services or any other form of electronic direct communication (Snapchat, Twitter, Facebook, Instagram...). Such contacts may only be made with the approval and supervision of school system personnel and be conducted solely for instructional purposes. Students/Staff are prohibited from participating in any unauthorized access ('hacking') of computer systems or any other unlawful technological activities. For personal safety, students should never meet anyone they have met only on the Internet. Students and school system employees are prohibited from the unauthorized electronic disclosure of personal student information such as name, home address, phone number, age,

race, grades, etc... The DeKalb County Schools have taken filtering and supervisory precautions to restrict intentional or accidental access to inappropriate sites on the Internet. Students must abide by all laws and policies of DeKalb County Schools. Ref: TITLE XVII--Children's Internet Protection Act.

The Superintendent is authorized to develop additional and more specific rules, procedures, and protections regarding Internet safety in order to comply with the Children's Internet Protection Act. Such rules, procedures, and protections will address or provide:

- a. Education for students about appropriate online behavior, including interacting with other individuals on social networking sites and in chatrooms, cyber bullying awareness and response
- b. Measures to block or filter Internet access to pictures that are obscene, that constitute child pornography, or that are harmful to minors
- c. Restrictions of access by minors to harmful or inappropriate material on the Internet
- d. The safety and security of minors when they are using electronic mail, chat rooms, other forms of direct electronic communications
- e. Prevention of 'hacking' and other forms of unauthorized use of or access to computer or Internet files, sites, databases or equipment
- f. Unauthorized disclosure, use, and dissemination of personal information regarding minors

4.13.7 Limitations of Liability – The Board makes no warranties of any kind, either expressed or implied, that the functions or the services provided by or through the Board's technology resources will be error-free or without defect. The Board will not be responsible for any damage users may suffer, including but not limited to loss of data, interruption of services, or due to a failure to block or filter inappropriate Internet sites or electronic communications. Although the Board claims ownership of its various technology resources, all user-generated data, including email content and digital images, is implicitly understood to be representative of the author's individual point of view and not that of the school or school system. Students and their parents must also be aware that the Board cannot assume any liability arising out of the illegal or inappropriate use of technology resources.

[References: Pub. L. No. 106-554 and 47 USC §254(h) and (l)]. [Reference: 47 U.S.C. §254(h) and (l)]

4.13.8 Adoption of Rules and Regulations – The Superintendent is authorized to develop additional or more specific rules and regulations regarding access to and use of technology resources and to require adherence to such rules and regulations through such means as "Acceptable Use Practices", which may be published independently or as part other publications such as the "Student Code of Conduct and Attendance" or employee handbooks, and application of appropriate disciplinary policies and procedures. Such publications may or may not require students, their parents, or employees to sign an associated agreement form. Failure of the Board to request or obtain signed agreement forms or of the student, parent or employee to sign and return any such agreement form does not alleviate the individual of their responsibility to comply with these rules and regulations.

4.13.9 Software and Copyright Regulations – The primary goal of the technology environment is to support the educational and instructional endeavors of the students and employees of DeKalb County Schools. Individuals may only use accounts, files, software and computer resources

that are assigned to those individuals under their username. Individuals must take all reasonable precautions to prevent unauthorized access to accounts and data and any other unauthorized usage within and outside DeKalb County Schools.

Duplication of any copyrighted software is prohibited. If a single copy of a software program is purchased, it may only be used in one computer at a time. Multiple loading or down-loading programs into multiple computers, (1987 Statement on Software Copyright) is NOT allowed. Individuals are not authorized to make copies of any software or data without the knowledge of the Technology Coordinator. Any questions about copyright provisions should be directed to the Technology Coordinator.

Any use of technology resources that reduce the efficiency of use for others will be considered a violation of this policy. Students and employees of DeKalb County Schools must not attempt to modify technology resources, utilities and/or configurations or change the restrictions associated with their accounts, or attempt to breach any technology resources security system, including internet content filtering, either with or without malicious intent.

Network access shall not be used to affect individual computers or the network in any of the above ways. All DeKalb County Schools technology resources, regardless of purchase date or location, are subject to this policy. Any questions about this policy, its interpretation or specific circumstances shall be directed to the Technology Coordinator. Violations of this policy will be handled in a manner consistent with comparable situations requiring disciplinary action, including, but not limited to: (1) loss of access; (2) additional disciplinary action to be determined at the individual school in line with the Code of Student Conduct for the DeKalb County Schools or other Board policy; and (3) legal action, when applicable.

4.13.10 Purchasing Regulations - All Technology purchases that go through the DCBE network must be approved by the Technology Coordinator prior to the purchase. This includes but not limited to: software, hardware, web pages... The technology department sends out bids/quotes of basic items such as computers and printers. Items needed but not listed on quotes should be e-mailed to the Technology Coordinator to obtain a bid.

4.13.11 E-Mail Provision -The DeKalb County Schools System provides access to electronic mail for all of its employees. That access is for their use in any educational and instructional business that they may conduct. Staff personal use of electronic mail is permitted as long as it does not violate DeKalb County School policy or adversely affect others. All contents and usage of electronic mail shall be the property of the DeKalb County Schools System.

4.13.12 Internet Security -Information from electronic sources alters the educational environment by opening unlimited resources. The intent of DeKalb County Schools is to provide access to resources available via the Internet with the understanding that faculty, staff and students will access and use information that is appropriate for their various curricula. DeKalb County Schools have taken precautions to restrict access to controversial materials. However, on a global network it is impossible to control all materials. We believe that the valuable information and interaction available on this world-wide network far outweighs the possibility that users may procure material that is not consistent with the educational goals of the District. Because communications on the Internet are public in nature, all users should be careful to maintain appropriate and responsible communications. To maintain system integrity and to insure that the system is being used responsibly, DeKalb County Schools reserve the right to review files and network communications. Users should not expect that files stored on DeKalb County Schools' servers will always be private.

Internet access is a privilege, not a right. All Internet users are expected to act in a considerate

and responsible manner.

The following are not permitted on any DeKalb County Schools Network:

- a. Sending, displaying or downloading offensive messages or pictures
- b. Using obscene language
- c. Harassing, insulting or attacking others
- d. Damaging computers, computer systems or computer networks (this includes changing workstation and printer configurations)
- e. Violating copyright laws
- f. Using other user's accounts
- g. Trespassing in other user files, folders or work
- h. Intentionally wasting limited resources
- i. Plagiarizing
- j. File sharing websites such as Kaaza and Torrent
- k. Proxies - use of e-mail or IP addresses to access unauthorized websites

4.13.13 Teacher Technology Responsibilities -Employees should have no expectation of privacy with respect to the system's computers, mail system or Internet access. Although it does not regularly do so, the system reserves the right, on a regular or random basis, to access and monitor all equipment, files, Internet access and e-mail use. The school system will cooperate fully with local, state or federal officials in any investigation concerning or relating to any unacceptable activities conducted through the system's technology resources. Anyone committing unacceptable acts will face disciplinary action by the school system as well as any legal action deemed necessary by law enforcement officials.

Social media can be a valuable tool for both personal and professional use. However, as with any tool, it must be used with skill and care. The guidelines below have been developed to help protect our students and employees from charges of inappropriate use. The guidelines and cautions apply to all social networking venues.

- a. It is advised that teachers do not friend students on social media.
- b. Never forget that on a social networking site, once you post something, it may be available forever, even if you choose to remove it from your page. "Post only what you want the world to see" (Johnson, Blue Skunk Blog).
- c. Employees should not update any personal social media statuses or post content on personal social media during school hours. The public expects employees to be working during the school day; posting on personal social media during this time may give the impression that teachers are not fulfilling their responsibilities to students.
- d. Student work or pictures of students may be posted unless an Opt-Out for Pictures letter is on file at the local school. Opt-Out for Pictures letter covers all pictures regardless of type of publishing (newspapers, magazines, social media...).
- e. Do not use social media as your sole means of classroom communication. Remember, not all parents use social media.
- f. All email communication between staff, teachers and parents should be conducted through the DeKalbk12.org mail (not social media messages).
- g. Do not say or do anything (or post pictures) on social media that you would not share in the classroom with parents, your school Principal and your school Board. Posts of provocative photographs, sexually explicit messages or the use of alcohol or drugs which are allowed to be viewed by the public (social media "friends") would be considered quite inappropriate and could certainly jeopardize one's employment.

POLICY VIOLATIONS

Every employee is responsible for reporting any suspected violations of DeKalb County Schools' policy to the Technology Coordinator. Example, if you are on the receiving end or know of an inappropriate email, it is your responsibility to report the email.

- 4.13.14 Disclaimer -DeKalb County Schools make no warranties of any kind, whether expressed or implied, for the service provided. The school system shall not be responsible for any damages suffered while the user is on the system. Such damages could include, but are not limited to, loss of data, non-deliveries, missed deliveries or service interruptions caused by the user or others. Use of any information obtained through DeKalb County School's network is at the user's own risk. The school system specifically disclaims any responsibility for the accuracy of the information obtained through its services.
- 4.13.15 Email Use Policy -The DeKalb County Schools System provides access to electronic mail for employees and some student classes. That access is for their use in any educational and instructional business that they may conduct. All contents and usage of electronic mail shall be the property of the DeKalb County Schools System.

The risk assessment shall be used as a basis for a plan to mitigate identified threats and risk to an acceptable level.
 - b. The Superintendent or designee administers periodic risk assessments to identify, quantify, and prioritize risks. Based on the periodic assessment, measures are implemented that mitigate the threats by reducing the amount and scope of the vulnerabilities.
- 4.14.5 Data Classification - Classification is used to promote proper controls for safeguarding the confidentiality of data. Regardless of classification the integrity and accuracy of all classifications of data are protected. The classification assigned and the related controls applied are dependent on the sensitivity of the data. Data are classified according to the most sensitive detail they include. Data recorded in several formats (e.g., source document, electronic record, report) have the same classification regardless of format.
- 4.14.6 Systems and Information Control - Any computer, laptop, mobile device, printing and/or scanning device, network appliance/equipment, AV equipment, server, internal or external storage, communication device or any other current or future electronic or technological device may be referred to as devices. All involved systems and information are assets of DeKalb County Schools and shall be protected to the best of DCS ability from misuse, unauthorized manipulation and/or destruction. These protection measures may be physical and/or software based.
- a. **Ownership of Software:** All computer software developed by DeKalb County Schools employees or contract personnel on behalf of DeKalb County Schools, licensed or purchased for DeKalb County Schools use is the property of DeKalb County Schools and shall not be copied or distributed for use at home or any other location, unless otherwise specified by the license agreement.
 - b. **Software Installation and Use:** All software packages that reside on technological systems within or used by DeKalb County Schools shall comply with applicable licensing agreements and restrictions and shall comply with DeKalb County Schools’ acquisition of software procedures.
 - c. **Virus, Malware, Spyware, Phishing and SPAM Protection:** Virus checking systems approved by the District Technology Department are deployed using a multi-layered approach (computers, servers, gateways, firewalls, filters, etc...) that ensures all electronic files are appropriately scanned for viruses, malware, spyware, phishing and

SPAM. Users shall not turn off or disable DeKalb County Schools' protection systems or to install other systems.

- d. **Access Controls:** Physical and electronic access to information systems that contain Personally Identifiable Information (PII), confidential information, internal information and computing resources is controlled. To ensure appropriate levels of access by internal workers, a variety of security measures are instituted as recommended by the Data Governance Committee and approved by DeKalb County Schools. Mechanisms to control access to PII, confidential information, internal information and computing resources include, but are not limited to, the following methods:
1. **Authorization:** Access will be granted on a "need to know" basis and shall be authorized by the Superintendent, Principal, immediate supervisor, or Data Governance Committee with the assistance of the Technology Coordinator. Specifically, on a case-by-case basis, permissions may be added to those already held by individual users in the student management system, again on a "need-to-know" basis and only in order to fulfill specific job responsibilities, with the approval of the Technology Coordinator. Access is disabled upon completion or termination of employment.
 2. **Identification/Authentication:** Unique user identification (user ID) and authentication are required for all systems that maintain or access PII, confidential information, and/or internal information. Users will be held accountable for all actions performed on the system with their User ID. User accounts and passwords shall be kept secure and NOT shared.
 3. **Data Integrity:** DeKalb County Schools provides safeguards so that PII, confidential, and internal information is not altered or destroyed in an unauthorized manner. Core data are backed up to a private device for disaster recovery. In addition, listed below are methods that are used for data integrity in various circumstances:
 - transaction audit
 - off-site backups
 - disk redundancy (RAID)
 - checksums (file integrity)
 - data encryption
 - data wipes
 4. **Transmission Security:** Technical security mechanisms are in place to guard against unauthorized access to data that are transmitted over a communications network, including wireless networks. The following features are implemented:
 - integrity controls and
 - encryption, where deemed appropriate

Note: Only DCS district-supported email accounts shall be used for communications to and from school employees, to and from parents or other community members, to and from other educational agencies, to and from vendors or other associations, and to and from students for school business.

5. **Remote Access:** Access into DeKalb County Schools' network from outside is allowed using the DCS Portal. All other network access options are strictly prohibited without explicit authorization from the Technology Director, ISO (Information Security Officer), or Data Governance Committee. Further, PII, confidential information and/or internal information that is stored or accessed

remotely shall maintain the same level of protections as information stored and accessed within the DeKalb County Schools' network. PII shall only be stored in cloud storage if said storage has been approved by the Data Governance Committee or its designees.

6. **Physical and Electronic Access and Security:** Access to areas in which information processing is carried out shall be restricted to only appropriately authorized individuals. Passwords of compromised accounts will be changed upon discovery.
 - No PII, confidential and/or internal information shall be stored on a device itself such as a hard drive, mobile device of any kind, or external storage device that is not located within a secure area.

Requests for mass download of, or individual requests for information for research or any other purposes that include PII shall be in accordance with this policy and be approved by the ISO. All other mass downloads of information shall be approved by the committee and/or ISO and include only the minimum amount of information necessary to fulfill the request. A Memorandum of Agreement (MOA) shall be in place when transferring PII to external entities such as software or application vendors, textbook companies, testing companies, or any other web based application, etc... unless the exception is approved by the Data Governance Committee and/or Technology Coordinator.
2. **Other Electronic Data Transfers and Printing:** PII, confidential information, and internal information shall be stored in a manner inaccessible to unauthorized individuals. PII and confidential information shall not be downloaded, copied or printed indiscriminately or left unattended and open to compromise. PII that is downloaded for educational purposes where possible shall be de-identified before use. To ensure that personal information relating to PII is safeguarded and not accessed by unauthorized individuals it is important to shred all printed documents that contain any of this confidential information. Any and all email shall contain an email confidentiality disclaimer included if sending sensitive or confidential email.

- f. **Oral Communications:** DeKalb County Schools' staff shall be aware of their surroundings when discussing PII and confidential information. This includes but is not limited to the use of cellular telephones in public areas. DeKalb County Schools' staff shall not discuss PII or confidential information in public areas if the information can be overheard. Caution shall be used when conducting conversations in: semi-private rooms, waiting rooms, corridors, elevators, stairwells, cafeterias, restaurants, or on

public transportation, etc....

- g. **Audit Controls:** Hardware, software, services and/or procedural mechanisms that record and examine activity in information systems that contain or use PII are reviewed by the Technology Department annually. Further, the committee also regularly reviews records of information system activity, such as audit logs, access reports, and security incident tracking reports.
- h. **Evaluation:** DeKalb County Schools requires that periodic technical and non-technical evaluations of access controls, storage, and other systems be performed in response to environmental or operational changes affecting the security of electronic PII to ensure its continued protection.
- i. **IT Disaster Recovery:** Controls shall ensure that DeKalb County Schools can recover from any damage to critical systems, data, or information within a reasonable period of time. Each school, department, or individual is required to report any instances immediately to the Superintendent and/or Technology Coordinator, Risk Management Officer, and/or ISO for response to a system emergency or other occurrence (for example, fire, vandalism, system failure and natural disaster) that damages data or systems.

The IT Disaster Plan shall include the following:

- 1. A prioritized list of critical services, data, and contacts.
- 2. A process enabling DeKalb County Schools to restore any loss of data in the event of fire, vandalism, natural disaster, or system failure.
- 3. A process enabling DeKalb County Schools to continue to operate in the event of fire, vandalism, natural disaster, or system failure.
- 4. Procedures for periodic testing of written contingency plans to discover weaknesses and the subsequent process of revising the documentation, if necessary.
- 5. An offsite backup, diagram, and list of devices for each location.

4.14.7 Compliance

- a. The Data Governance Policy applies to all users of DeKalb County Schools' information including: employees, staff, students, volunteers, and outside affiliates. Failure to comply with this policy by employees, staff, volunteers, and outside affiliates may result in disciplinary action up to and including dismissal in accordance with applicable DeKalb County Schools' procedures, or, in the case of outside affiliates, termination of the affiliation. 4.19 ***School and Community Organizations Relations***

The DeKalb County Board of Education considers parent-teachers' associations as auxiliaries to the public schools, and not as "outside" groups. Whenever a local parent-teacher association is formed, it shall be permitted to hold its regular meetings in the school building, and it shall be the duty of the Principal and the teachers of the school to further the work of the association in every way practicable. Meetings of these associations may be held in the school building with the permission of the school Principal without the necessity of the lease required of "outside" groups.

b. **School/Community**

The DeKalb County Board of Education requires that goals for the school be developed with the assistance of the individual school communities and that progress toward meeting stated goals be communicated to the public on a regular basis through newsletters, school meetings and other means.

c. **Booster Clubs**

It shall be the policy of DeKalb County Board of Education to work with, and encourage the support of band and athletic booster clubs. All booster club activities shall be authorized by, and coordinated with, the school Principal. All decisions concerning personnel employed by the Board shall be strictly reserved as a Board matter and shall not be the prerogative of booster clubs. Any person paid solely by a citizen group must be approved by the Board prior to being permitted to work with students in the local schools. The Board is not responsible for commitments made by other groups, individuals or organizations.

d. **The Alabama Department of Education has provided Guidelines for School-Related Organizations.**

Each Principal and school related organization must follow these guidelines when determining if a club or organization is a school related activity. The purpose of these Guidelines for School-Related Organizations is to assist these organizations, school officials, school bookkeepers, auditors and other agencies in determining the proper accounting for school-related organizations.

4.20 *Inter-district Relations*

The DeKalb County Board of Education shall participate in shared services with other Boards as required by federal and state laws as they relate to federal projects in which the local schools are involved. The Board endorses the idea of cooperative undertakings with other School Districts when such endeavors create a more effective learning environment for students.

4.21 *School Resource Officers*

School Resource Officers operate under the direction of the Sheriff/SRO Supervisor.

4.22 *Service Animals*

4.22.1 Americans with Disabilities Act - The DeKalb County Board of Education acknowledges its responsibility to permit individuals with disabilities, to include employees, students, and other individuals, to be accompanied by a “service animal” in school buildings/properties, in classrooms, and at school functions, as required by the Americans with Disabilities Act (ADA).

A service animal is any guide dog, signal dog or other animal individually trained to do work or perform tasks for the benefit of the individual with a disability, including but not limited to guiding individuals with impaired vision, alerting individuals with impaired hearing, providing minimal rescue or protection work, pulling a wheelchair or fetching dropped items. The service, the service animal is providing must be directly related to the functional limitations of the person’s disability, Service animals are working animals, not pets.

Therapy or companion animals, including pets, are not service animals, are not covered under the Americans with Disabilities Act, therefore, are not permitted on Board facilities or at Board-sponsored activities pursuant to the provisions of this policy.

Service animals whose behavior poses a direct threat to the health or safety of others or is disruptive to the campus community may be excluded at the time of the threat/disruption, regardless of training or certification.

4.22.2 Employee Requests for Service Animal and Reasonable Accommodation

1. EMPLOYEE REQUESTS – An employee who requests a service animal as an accommodation is required to submit a written request to and obtain authorization from the Office of the Superintendent of DeKalb County Board of Education.
2. REASONABLE ACCOMMODATION – Service animals for reasonable accommodation will be permitted based upon documentation supporting the assistance of the service animal as well as proof of immunization and of animal licensing/registration as required under applicable Alabama and local law.

4.22.3 Student Requests for Service Animal and Reasonable Accommodation – The Superintendent is directed to develop and implement procedures consistent with this policy to address a request by

a parent, legal guardian, or adult student for a student to be accompanied by a service animal.

4.22.4 Requirements of Service Animals and Their Partners/Handlers

1. TRAINING – A service animal must be specifically trained to perform a service function.
2. IDENTIFICATION – The service animal should wear a harness, cape, identification tag or other gear that readily identifies its working status consistent with the provisions of the ADA.
3. CONTROL – The partner/handler must be in full control of the service animal at all times. The care and supervision of the service animal is solely the responsibility of its partner/handler. The partner/handler of a service animal may be asked to remove any animal that is unruly or disruptive (e.g. barking, running around and causing disruption) from Board property and/or facilities at the time of the disruption. If the improper behavior happens repeatedly, the handler may be required to take significant steps to mitigate the behavior before bringing the animal onto Board property and/or facilities. Mitigation may include muzzling a barking animal, obtaining a refresher training course for both the animal and the handler, or other appropriate measures.
4. LEASH – The service animal must be on a leash at all times.
5. LICENSE AND TAGS – All service animals should have an owner identification tag and license documenting immunization consistent with local and state law.
6. CLEAN UP RULE – The partner/handler must always carry equipment sufficient to clean up the animal's waste, immediately remove the waste, and be responsible for the proper disposal of the animal's waste.

4.22.5 Administrators Responsibilities

1. If an animal is on school site and is not otherwise identified as or know to be a service animal, inquire if the animal is a service animal.
2. Verify that an employee, parent, or adult student who requests a service animal as an accommodation obtains appropriate authorization through the Office of the Superintendent of the DeKalb County Board of Education.
3. Direct any questions regarding service animals to the Office of the Superintendent of the DeKalb County Board of Education.
4. Allow a service animal to accompany the partner/handler at all times and everywhere on campus, within Board property, except where service animals are specifically prohibited due to health, environmental, or safety hazards.
5. Direct staff, students, and other persons to refrain from petting, feeding or deliberately startling a service animal as may be needed.

6. Immediately report any disruptive behavior of a service animal to the Office of the Superintendent of the DeKalb County Board of Education.

4.22.6 Service Animals in Training – To insure the safety and security of the school community, students, staff, and community members who are training service animals, voluntarily or for compensation, are not allowed to bring the service animal in training to Board facilities or to participate in the Board-sponsored activities unless specifically authorized by the Superintendent of DeKalb County Board of Education.

4.22.7 Law Enforcement – This policy does not address the use of animals for law enforcement. Therefore, law enforcement agencies are not restricted by this policy.

American with Disabilities Act, 28 CFR Part 35

4.23 Title IX: Sex-Based Discrimination & Prohibited Conduct

4.23.1 Policy Objective

a. Statement of the Law

Title IX of the Education Amendments Act of 1972 (“Title IX”) provides that “[n]o person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance.” This includes discrimination affecting both students and employees.

b. The Board’s Expectations

The Board is committed to meeting the standards of Title IX and does not discriminate on any basis, including on the basis of sex, in its educational programs and activities.

The Board expects its students and employees to conduct themselves in a non-discriminatory manner, in accordance with Title IX, whether on campus or at a school-based activity off-campus. Title IX’s prohibition against sex-based discrimination includes harassment, unwelcome conduct, sexual assault, dating violence, domestic violence, and stalking. When conduct in violation of Title IX is reported, the District will ensure action is taken to:

- provide supportive services and resources to impacted students and employees;
- conduct a thorough and impartial investigation;
- communicate regularly with those involved in writing throughout the process; and
- promptly provide a written determination following completion of its investigation.

If the District finds a responding party to be responsible for the conduct alleged, in violation of this policy, sanctions up to and including expulsion or termination may be imposed.

4.23.2 Title IX Staff

The Board has authorized the Superintendent to designate the following Title IX Staff members:

- a. Title IX Coordinator

The Title IX Coordinator shall oversee implementation and enforcement of this Policy, as well as compliance with applicable procures, rules, and regulations. Reports, questions, or concerns regarding Title IX and potential instances of prohibited conduct may be directed to the Title IX Coordinator. The Title IX Coordinator shall also receive complaints of prohibited conduct, coordinate investigations, and ensure adequate training.

Contact information for the Title IX Coordinator can be found on the district webpage, at the front office of each school, and will otherwise be made available to students, employees, and community members.

b. Title IX Investigators

Title IX Investigators will collect and review evidence, including witness statements, and prepare an investigative report. These persons will receive training from the Title IX Coordinator. Only one investigator will be assigned by the Title IX Coordinator for each individual complaint. Title IX Investigators will often be school-based personnel responsible for investigating other instances of student misconduct and will perform the Title IX investigative duties as needed.

c. Title IX Council

The Title IX Council will be a panel of Board employees who will review investigative reports and make responsibility determinations. These persons will receive training from the Title IX Coordinator. While the council may consist of several employees, only **one** council member will be assigned to render a decision in each case.

4.23.3 Scope of Policy

Title IX prohibits sex-based discrimination, including sexual harassment, whether against students or employees. Note that misconduct falling outside this policy may nonetheless violate other Board policies (such as the student code of conduct) and thus be otherwise subject to disciplinary action.

a. Educational Program or Activity

This Policy applies to all prohibited conduct against any person that occurs in the “***educational program or activity***” of the Board, including all of its schools, regardless of whether that program or activity takes place on or off campus. An “educational program or activity” includes locations, events, or circumstances over which the Board, through its schools and/or employees, exercise substantial control over both the alleged wrongdoer and the context in which the conduct occurred. This may include, for example, an incident that occurs off-campus at a school sponsored event such as a field trip, but must occur in the United States.

b. Covered Individuals

All students and employees are subject to this Policy.

4.23.4 Prohibited Conduct

A violation of this Policy occurs if a student or employee is found, more likely than not (i.e., by a preponderance of the evidence), to have engaged in any of the types of prohibited conduct defined below. This conduct is prohibited regardless of whether it is directed toward a student, employee,

visitor, or other person.

a. Sexual Harassment

- Any instance of quid pro quo harassment by a school employee. Quid pro quo means “this for that” and, in this context, refers to situations where a school employee offers favorable treatment in exchange for submission to unwanted sexual advances. This includes both explicit and implicit harassment;

Example: Offering an educational opportunity or benefit to a student, like a higher grade, in exchange for a sexual favor. This is sexual harassment regardless of whether the student agrees to the request.

- Any unwelcome conduct that a reasonable person would find severe, pervasive, and objectively offensive such that it effectively denies equal educational access; or
- Any instance of sexual assault, dating violence, domestic violence, or stalking.

b. Sexual Assault

Any sexual act directed against another person, forcibly and/or against that person’s will; or not forcibly or against the person’s will where the victim is incapable of giving consent because of his/her temporary or permanent mental or physical incapacity (or because of his/her youth). This offense includes the forcible rape of both males and females. Sexual assault may include, but is not limited to rape, fondling, incest, and statutory rape.

c. Dating Violence

Violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim.

d. Domestic Violence

Violence committed by a current/former spouse of the victim; person with whom the victim share a child in common; person who is cohabitating with or has cohabitated with the victim as spouse; or person similarly situated to a spouse of the victim.

e. Stalking

Engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for his/her safety or the safety of others; or suffer substantial emotional distress. Stalking may be conducted directly or indirectly and may include, but is not limited to, the following behaviors:

- Making unwanted phone calls, including hang-ups;
- Sending unsolicited or unwanted letters, emails, texts, or instant messages;
- Leaving unwanted items or presents;
- Following or spying on a person;

- Showing up or waiting at places where the victim will be without a legitimate reason;
- Posting information or spreading rumors about the victim on the internet in a public place, or by word of mouth.

f. Sex-Based Discrimination

Any conduct based on a person’s sex, pregnancy, or gender that adversely affects a term or condition of that person’s employment, education, or participation in an educational program/activity.

4.23.5 Reporting Prohibited Conduct

Any person (students, employees, parents/guardians, or other third parties) may report an instance of prohibited conduct, even if his or her knowledge of the incident is based on indirect information. Initial reports may be made in person, by mail, by telephone, by email, or by another means that results in actual receipt of the information by the Title IX Coordinator. Persons may also report potential prohibited conduct to any employee.

Employees, however, are mandatory reporters and are thus required to promptly report potential instances of prohibited conduct to the Title IX Coordinator. This requirement exists regardless of how the employee becomes aware of the potential violation or if the person providing the information to the employee requests confidentiality. Where a person requests confidentiality, the employee should inform them of the employee’s obligation to provide all known information to the Title IX Coordinator. Note that the mandatory reporting designation does not supersede an employee’s legal obligation to maintain confidentiality – such as a health care provider’s obligation to keep medical information private.

While prompt reporting is encouraged, there is no time limit on reporting or filing complaints of violations of this Policy.

4.23.6 Grievance Procedure

The Superintendent is authorized to implement a grievance procedure that complies with the rules adopted by the United States Department of Education, and to amend those procedures when the Department of Education updates or amends its rules. Those procedures should cover the following: complaint; investigation; decision; and appeal.

4.23.7 “Rape Shield” Protections

- a. Complainants are not required to divulge any medical, psychological, or similar privileged records.
- b. Prior sexual history of a party is generally irrelevant. An individual’s character or reputation with respect to prior sexual activity is not relevant and cannot be considered as evidence except in limited circumstances. These circumstances include where such history is necessary to explain the presence of a physical injury, or where prior sexual history between the parties may help explain the context of the parties’ relationship and has a bearing on whether consent was sought and given in the particular incident at issue.

- c. Evidence of a pattern of conduct by the respondent may be relevant, whether before or after the incident at issue, to prove a material fact. It may also have a bearing on assigning appropriate discipline.

4.23.8 Criminal or Civil Investigations

The policies and procedures outlined in this policy do not supersede applicable state or federal law. The grievance procedure outlined in the policy may be instituted for a violation of law that also violates this policy so long as both violations result from the same factual situation. Proceedings under this policy may be carried out prior to, simultaneously with, or following civil or criminal proceedings.

4.23.9 Retaliation

The Board prohibits retaliation by its employees, students, or agents against any person who exercises their rights pursuant to this Policy or Title IX.

Retaliation is any act that has the effect of punishing a person for engaging in a protected activity, such as reporting prohibited conduct, filing a complaint under the Policy, and assisting or participating in any investigation. Examples of retaliatory acts include, but are not limited to, adverse employment actions or preventing a student from participating in a school-based activity. Retaliation may also include coercion, intimidation, or other harassment that would discourage a reasonable student, employee, or other person from filing a complaint regarding prohibited conduct or otherwise participating in an investigation under this Policy.

4.23.10 Withdrawal of a Complaint

A complainant may, at any time in the process, request to withdraw a complaint. The Title IX Coordinator will make the decision regarding whether to permit such withdrawal, but will strongly consider the complainant's wishes.

Allegations of sex-based harassment may also fall under Policy 4.23 and should also be reported in accordance with the terms of that policy.

- a. Definition of Prohibited Harassment - Prohibited Harassment is unwelcome verbal, physical, visual or other conduct directed against any person or group, based upon characteristics or activities protected by federal or state law that has the purpose or effect of unreasonably interfering with an individual's working environment or work performance or creating an offensive, demeaning, or intimidating environment for that person or group of persons. Harassment may not be unlawful by applicable legal standards unless it is severe or pervasive. However, any Prohibited Harassment shall constitute a violation of this policy and may result in appropriate disciplinary action.

 - Verbal harassment may include but is not limited to epithets, derogatory comments or slurs based upon one of the characteristics or status listed above.

movement, when directed at an individual because of an individual's protected class or status.

Although employees are encouraged to work together to resolve differences, and while reports to first-line supervisors may be helpful, the Board cannot properly oversee and investigate a situation without proper notice in the manner set out below. Informal complaints to co-workers and reports to first-line supervisors will not comply with this policy and cannot provide notice to the Board of the problem. Employees MUST follow the complaint procedure set out below.

d. Complaint Procedure

- Persons Responsible for Receiving and Investigating Complaints - The Superintendent is responsible for adjudicating complaints regarding Prohibited Harassment. The Superintendent designates an Assistant Superintendent as the person responsible for receiving reports of alleged Prohibited Harassment. All complaints should be voiced directly to an Assistant Superintendent. An Assistant Superintendent can be reached at Central Office or Annex. However, under no circumstances will an employee be required to present the complaint to the person who is the subject of the complaint, nor will the complaint be adjudicated by the person who is the subject of the complaint. Accordingly, if the complaint concerns an Assistant Superintendent, the complaint may be made to a different Assistant Superintendent, directly to the Superintendent, or if the Superintendent is the subject of the complaint, directly to the Chairman or Vice-Chairman of the Board.

appropriate action based on these findings. The complainant will be informed in writing of any action that is taken as a result of the investigation.

- Review by the Superintendent and the Board - A complaining party who is not satisfied with the investigation or resolution of the complaint may request that the Superintendent take additional or different action or present the complaint to the Board for its review and action. If any employee believes he or she has been subjected to retaliation or adverse action as a result of a complaint, the employee must raise that concern in the same manner as set out in this policy. If the employee feels that the person retaliating or otherwise taking adverse action against him/her is the same person to whom he/she is to report such matters, then he/she may proceed directly to an Assistant Superintendent, the Superintendent, or the Chairman or Vice-Chairman of the Board, as the circumstances may require.
- g. Penalties for Violation - Any employee who violates the terms of this policy or who impedes or unreasonably refuses to cooperate with a Board investigation regarding allegations of Prohibited Harassment will be subject to appropriate disciplinary action, up to and including termination.

It shall be the duty of the Superintendent to recommend in writing to the Board of Education for election the applicant who, in his professional judgment, is best qualified for the position. Except as otherwise provided or permitted, an employee who is absent from work without approved leave will be considered absent without leave in violation of Board policy and subject to appropriate disciplinary measures. Employees who are approved for paid leave or absences will be paid at the regular daily rate of pay; however, a day of paid leave or absence will not be counted as a day worked for the purposes of computing overtime under the Fair Labor Standards Act. Pay will be reduced on a pro rata basis for leaves or absences not covered by sick, vacation, personal, or other appropriate form of paid leave. The continuation of benefits during an approved absence is subject to the provisions of the particular benefit policy or plan.

5.19.4 Sick Leave

- Persons Eligible for Paid Sick Leave* – All regular full time employees are eligible to accrue (earn, accumulate) paid sick leave.
- Earning and Accumulation of Paid Sick Leave* – All eligible employees earn sick leave days at the rate provided for in state law. Eligible employees may accumulate sick leave as provided by state law.
- Use of Sick Leave* – Eligible employees may only use paid sick leave for absences caused by the following:
 - Personal illness;
 - Bodily injury which incapacitates the employee;
 - Death in the immediate family of the employee (husband, wife, father, mother, son, daughter, brother, sister, father-in-law, mother-in-law, son-in-law, daughter-in-law, nephew, niece, granddaughter, grandson, grandfather, grandmother, uncle and aunt). Where unusually strong personal ties exist because of an employee's having been supported or educated by a person of some relationship other than those listed, this relationship may be recognized for leave purposes. In such cases the teacher concerned shall file with the Board of Education a written statement of the circumstances which justify an exception to the general rule;
 - Attendance to an ill member of the immediate family (husband, wife, father, mother, son, daughter, brother, sister,(or others with close ties) of the employee or a person standing in loco parentis.

[Reference: ALA. CODE §16-1-18.1 (1975)]

Employees of the school district shall be eligible to earn sick leave at the rate of one day for each month of service. Employees may accumulate any unused sick leave. In no case shall sick leave be used until it has been earned. Upon proper verification of the previous employer, personnel employed by the Board of Education may transfer all accumulated sick leave from another school district or approved state agency in Alabama. The intent of the following

statement is to impress upon employees the seriousness of incorrect claims for sick leave. Sick leave is not to be abused by employees. While personal leave may be used for sick leave, sick leave cannot be used for personal leave. To do so is to obtain salary under false pretenses, or fraud, and the employee is subject to immediate dismissal and prosecution. When a regular full-time employee retires, any accumulated sick leave will be added to service time if eligible for retirement.

d. *Certification* –If the employee’s principal or supervisor has probable cause to believe that an employee has abused or misused sick leave, a physician’s statement verifying the existence of a medical condition may be required by the Superintendent or his designee. Abuse of sick leave may subject the employee to disciplinary action.

5.19.5 On-The-Job Injury Leave – On-The-Job Injury includes an accident or injury to an employee that occurs in the course of performing job duties for the Board or when the employee is directed or requested by the employer to be on the property of employer and which prevents the employee from working or returning to the job. Employees who are accidentally injured on the job may be approved for paid “on- the-job injury” leave without using sick days, provided that:

- a. The injured employee submits written medical certification from the attending licensed physician stating that the employee was injured and cannot return to work due to a specified injury, if there is a reasonable expectation that the employee will return to work and, if so, the expected date of that return. The Board may require a second opinion from a Board specified physician, at its expense.
- b. The employee submits a signed written account of the accident attested by a principal or department head within twenty-four (24) hours after the injury occurred if the employee is able. If the injured employee is not able to notify the Board, another person reasonably knowledgeable about the employee’s condition and circumstances leading to the injury may provide the required notification within a reasonable time.

Upon a determination that the employee has been injured on the job and cannot return to work, the Board may maintain the employee’s salary and benefits for the period of incapacity caused by the injury, not to exceed ninety (90) days. An employee who is injured on the job may file a request for unreimbursed medical expenses and costs with the State Board of Adjustment. The Board will provide such reasonable assistance to the employee in filing the Board of Adjustment claim as is required by law, but assumes and will have no responsibility or liability for processing the claim or directly reimbursing the employee any unreimbursed medical expenses and costs. On-the-job injury leave will be administered in accordance with and subject to the requirements and limitations imposed by state law regarding such leave.

5.19.6 Personal Leave – The State of Alabama grants each employee two (2) days for personal leave. The DeKalb County Board of Education grants each employee up to three (3) additional days per year for personal leave. To earn the three additional days paid by the board, an employee must be employed during the first semester of the scholastic year. New employees hired to begin the first day of school thru the last day of school prior to Christmas break will be eligible for the two personal days granted by the state and the three additional personal days granted by the BOE. New employees hired from January 1 thru the end of the current school year will be granted the two personal days given by the State of Alabama. The following school year those employees will no longer have “new hire” status and will receive the standard amount of personal days granted by the State and BOE. Employees are responsible for keeping up with number of days taken. When the computer records show an

employee has exceeded the allowable personal leave, the payroll clerk will adjust salary accordingly. The remainder of personal leave, not used by the end of the school term, will automatically be converted to sick leave unless the employee sends in a written request for reimbursement of unused days. Reimbursement will be at the substitute rate.

The Board requests that personal leave not be taken during the first two weeks of the school term or during the last two weeks of the school term or prior to a holiday or immediately following a holiday, unless an emergency exists. Although this is not mandated, cooperation of employees will be appreciated.

- 5.19.7 Vacation or Annual Leave – Twelve-month full-time employees are eligible for paid vacation. Vacation days are accrued at a rate of 1 per month. No more than 15 days may be carried over to the next year after June 30. Vacation days may not be rolled over to any other type of leave. The standard 12 month contract runs from July 1 to June 30. Employees will not receive pay for accumulated annual leave upon resignation or retirement.
- 5.19.8 Professional Leave – The DeKalb County Board of Education recognizes a distinct need for professional leave for personnel in order to further enrich the school program. The Board of Education may grant professional leave, up to two (2) days during the school year, to an employee wishing to attend any educationally related conference, meeting, or convention, if such attendance is considered to be in the best interest of the school district. Any exceptions must be approved by the Superintendent or his designee. If more than two days are requested, a written request indicating merits of the leave will be required. Approval of such requests will be governed by the financial status of the school system and impact on students. Application for professional leave shall be made in writing, approved by the Principal, and submitted to the Superintendent for approval at least ten days in advance of the intended date of leave, using currently approved forms. Professional leave is not to be used for personal reasons, with the exception of an approved request for the following:

Upon request and approval of the Superintendent, an employee may be granted professional leave on a school day when taking a college competency exam, not to exceed one day per person. The request must set forth the reason and must be signed by the attending professor, employee, and Principal. There shall be no provision for a second test. In addition, if, after taking the above professional leave, the employee has personal leave left at the end of the year, they will not be compensated for said leave.

The DEA and ESPO presidents may be granted two (2) additional days each per year to attend organizational business meetings.

Professional leave is not to be confused with Field Trips or Leave to supervise an athletic event or competition related to the employee's job duties. Separate request forms are provided for these events. All absences must be reported in AESOP.

- 5.19.9 Military Leave – A maximum of twenty-four (24) days of military leave will be granted to employees who are called to active training or combat duty. Such leave shall be without loss of pay. Employees anticipating training duty shall request (well in advance) arrangements that will not conflict with school duties. A copy of this request shall be sent to the Superintendent along with a copy of the company commander's response.

5.19.10 Court Leave – Full-time employees are entitled to regular compensation while performing jury duty or when the employee is summoned under subpoena or other legal requirement to testify at trial in a court of law or in an administrative proceedings constituted under the statutory authority of the agency conducting the proceedings. Paid leave is not authorized for employees to meet with attorneys, to attend depositions, or to otherwise prepare for legal proceedings unless the presence of the employee is requested or required by the Board.

[ALA. CODE §§16-8-25, 12-16-8 (1975)]

5.19.11 Catastrophic Leave – Employees, at their discretion, may donate a specific number of sick leave days (up to 30) to a catastrophic sick leave bank designated for a specific employee (forms available on www.dekalbk12.org). Donated leave is not returned to the donor unless not used by the designated employee. An employee must be a member of the SLB at the time catastrophic illness or injury is discovered and has exhausted all leave at their disposal, including all personal leave and the fifteen (15) days they may borrow from SLB, to be eligible for CSL. Sign up for the SLB is twice a year, the first two weeks of each semester. Members receiving CSL do not have to pay back donated days.

5.19.12 Bereavement Leave – Each employee shall be allowed three (3) paid days per year (total) for bereavement leave, as follows: A death in the immediate family of the employee (husband, wife, father, mother, son, daughter, brother, sister, father-in-law, mother-in-law, son-in-law, daughter-in-law, aunt, uncle, niece, nephew, grandchildren, grandparents. Where unusually strong personal ties exist because of an employee's having been supported or educated by a person of some relationship other than those listed, this relationship may be recognized for leave purposes. In such cases, the employee shall file with the Board of Education a written statement of the circumstances which justify an exception to the general rule. This leave totals three (3) days per year, not per death in the family. Employees may use sick leave.

5.19.13 Unavoidable or Emergency Leave – A maximum of three (3) days per year, non-cumulative, available with full salary less pay for a substitute - current maximum rate. The substitute is to be paid on the county payroll. The nature of the absence must be documented and attached to the cause of absence/payroll reports. This leave is not to be confused with sick leave, personal leave, or professional leave, and must not be planned by the teacher. This leave cannot be used to offset excessive leave time in other areas. The determination as to “unavoidable” is subject to final approval when reported. Examples of Unavoidable Leave would be: Tornado damage, home fire, etc. necessitating the employee's attention; involuntary court summons; and various other emergencies.

- When an employee receives a summons to go to court for a school-related incident, the Board will pay the teacher's salary and the salary of the substitute.
- If a court summons does not fall under the above reason, but is involuntary, the absence may come under Unavoidable Leave whereby the employee would receive full pay less the pay of the substitute.
- If an employee volunteers to be a witness in a court case, it may be claimed under Personal Leave if available.

5.19.14 Maternity Leave – The DeKalb County Board of Education may grant maternity leave to an employee upon proper notification to the Superintendent in writing, furnishing the estimated date of delivery and the estimated beginning and ending dates of the requested leave. Accumulated leave days may be used when the employee's physical condition warrants it.

The employee, the employee's Principal or supervisor, and the Superintendent or his designee shall decide at the appropriate time when the leave may begin. Each case will be decided individually and will be based on such factors as:

- The physical condition of the employee,
- The ability of the employee to perform her regular duties.
- Definite breaks in the school program such as reporting periods, semester, beginning and ending of school year.

Maternity leave may be taken for up to four (4) months with employee using accumulated leave or taking a cut in salary without loss of position. (No extensions in time are to be made without forfeiting same position.) Should the leave exceed four scholastic months, the employee will be returned to system if and when a suitable position becomes available.

5.19.15 Family Medical Leave – Under Public Law 103-3, Sec. 108, enacted in Feb., 1993, pertaining specifically to education agency employees, regular full-time and regular part-time personnel who have been employed at least twelve (12) months or 1250 hours (the equivalent of one nine (9) months' school term) are entitled to family leave under certain conditions. Each request will be handled individually in compliance with this law. A copy of the law in its entirety is available in Principal's office. Since one of the purposes of this leave is to guarantee that employees will return to the same or an equivalent position upon termination of illness, without creating a hardship on the employer, there are numerous criteria or test situations, including, but not limited to, the following:

- a. The reason for the leave must be mainly due to a catastrophic-type illness or crisis involving a spouse, child, or parent.
- b. Employees may be granted family leave for up to twelve (12) weeks during the year, provided it does not cause certain hardships for the employer, with sufficient documentation provided to show need.
- c. Employees who serve in an instructional capacity may be required to meet certain "Special Rules" pertaining to schools.
- d. The family leave is unpaid. All sick, personal or vacation leave shall have been exhausted unless in conflict with other mandates or legal requirements.
- e. The employer may require a second opinion as to the necessity of leave.
- f. HOWEVER, if the employee does not return to work, the Board may recover the health insurance premium it paid on the employee's behalf during the leave.

5.19.16 Leave of Absence – A leave of absence for a period of **up to** one year for good and just cause may be granted to a tenured employee of the DeKalb County Board of Education.

Application for such leave shall be submitted to the Board for review and approval at least 30 days prior to the effective date of leave (in unusual circumstances, a minimum of five (5) days may be acceptable). A leave granted by the Board shall not be deemed to interrupt the continuing service status of the employee. Leaves will not be granted for the purpose of taking full-time employment. A violation will render leave null and void and affect employee's job status. An official leave of absence may be extended for a period of one year, not to exceed more than two years total, in keeping with the Code. Written notice of date of return to the school district shall be made at the time of request, if during the school term, or not later than May 1st (on penalty of forfeiture of position) if the teacher plans to return the following fall semester. Should said employee decide later not to return, proper procedure with regard to a resignation must be followed, including time limits. The employee on leave shall be returned to former position or one of equal status. See Maternity Leave, if applicable.

Any employee listing ten (10) consecutive days as sick leave days should notify the payroll department. Any employee listing twenty (20) consecutive days as sick leave should fill out and submit a leave of absence form to notify the payroll department in order to verify insurance coverage and ensure substitute requirements are met.

5.19.17 Election Leave – In compliance with Alabama Code 17-6-17, a school Board employee shall be granted "election leave" to perform election duties on Election Day. Proper documentation of the appointment as inspector, clerk, or officer (poll watcher not included) and the dates of the required service shall be furnished to the Board by the appointee at least seven days before the expected absence from employment. The substitute for duly appointed election officials shall be paid by the Board of Education. Proper forms must be filed with the Central Office.

5.20 Sick Leave Bank

When desiring to use the sick leave bank, the employee must notify the Payroll Department. The SLB policy of the DeKalb County Board of Education will follow the provisions of Act #84-321 as passed by the 1984 Alabama Legislature and revised October, 1999. The basic provisions as outlined in the Act/Revision are:

- Participation in the bank is voluntary. The member may withdraw from the SLB by written resignation.
- To be a donor or a beneficiary, the employee must be a member.
- Any employee who earns sick leave is eligible to join the SLB.
- Five days must be contributed to the bank by the employee. The Board cannot give anyone five days to join; however, the Board is permitted to advance the five days needed for SLB membership to new or current employees. This means the employee will not accumulate sick leave days for the five months following their application.
- Enrollment in the SLB must take place during the first two weeks of each semester.
- No employee shall be allowed to borrow or owe more than 15 days unless a majority of the participating members of the bank vote to extend said limit.
- To be eligible for a loan from the SLB, a participating member must have exhausted ALL his or her other available leave. (This includes any/all personal leave either paid or unpaid.)

5.21 Administrative Leave

The Superintendent is authorized to place an employee on administrative leave upon a determination that the best interests of the school system would be served by such action. Administrative leave relieves the employee of regular work responsibilities pending resolution of the matters or circumstances that gave rise to the leave. Administrative leave is not disciplinary in nature or purpose and does not affect the employee's compensation, benefits, tenure, or non-probationary status. Administrative leave may be accompanied by such additional restrictions or conditions as may reasonably be imposed by the Superintendent under the circumstances (e.g., limitation on access to school property). The status of employees who are on administrative leave will be reviewed and reported to the Board periodically or as otherwise may be directed by the Board.

5.22 Counselor Leave

Swap time (up to five days) is available, as necessary, for elementary and junior high school counselors who are requested by the Principal to work on scheduling during the summer months. Time worked must be documented by employee signing in and out on the days worked. Time off may be taken

during the school year. Comp time must be used during the following scholastic year. Any time not used by the end of the scholastic year will be removed from the employee payroll record.

5.23 *Pro Credit Program (Flex Days)*

A pre-approved professional development activity will allow a certified employee credit for a designated work day. Designated work days available for “flexing” will be announced on each school year’s calendar.

5.24 *Professional Development and In-Service*

The DeKalb County Board of Education requires the development and implementation of a comprehensive program for the continuing education of all employees. Goals/objectives will be set annually with a follow-up evaluation to determine effectiveness. All certificated employees are required to follow the guidelines set by the Alabama State Department of Education for renewing certifications. Support personnel shall be required to earn a minimum of eight (8) clock hours of staff development credit each year, between July 1 and June 30. The credit must pertain to the current position. Individual plans will be completed by all employees in September with a progress report being submitted to the Superintendent no later than May 1 of each year. The Board will provide **professional development and in-service** activities during the year. The DeKalb County Board of Education requires all certificated employees to attend all **professional development and in-service** programs held during the contract year, including those arranged at the beginning of the year **and embedded in the school calendar** unless leave is submitted in advance and in accordance with policy. Activities such as the Parental Involvement Program which may be scheduled in the evening in lieu of a portion of another in-service day shall require the presence of teachers and staff. Support Personnel under a contract for 187 or more days will work at school unless instructed to attend a particular session.

5.25 *Dropout Prevention/At-Risk*

Dropout prevention is a part of the At-Risk Plan. Efforts will be made to identify potential dropouts and to encourage and help these students stay in school. Tutorial programs will be provided as necessary. School personnel will assist in every way possible to redirect the potential dropout's interest toward the school program and to promote his/her continued attendance. The DeKalb County Board of Education hereby calls to the attention of all school personnel, students and parents that the attendance, absence, and truancy policies shall be fully enforced in an all-out concerted effort to reduce absenteeism

5.26 *Reduction-in-Force*

5.26.1 Certified Personnel – The Board shall implement the following procedures in the event it becomes necessary to reduce the number of board approved employees.

- a. A reduction in force may take place when the Board determines that a need exists as a result of a decrease in student enrollment, shortage of revenues, or State mandate. Such a determination constitutes the necessary cause for dismissal.
- b. In developing recommendations for reduction in force to the Board, the Superintendent of Education will give due consideration to attrition by voluntary resignation, retirement or leaves of absence.
- c. As a prerequisite to all other considerations, the Board shall determine upon the recommendation of the Superintendent the grade level(s), ancillary services and discipline area(s) from which teachers are to be reduced in force at respective times. For the purpose of reduction in force the following terms are defined:
 - i. Grade level: Kindergarten, elementary/middle 1-8, secondary

grades 7-12, school administration and supervision, elementary guidance and counseling, secondary guidance and counseling, vocational guidance and counseling, library media, special education, vocational programs, and federal programs.

- ii. Discipline area: Certificate endorsement area(s) and current major teaching or administration/supervisory assignment(s) within the school system.
- d. The Superintendent's recommendation shall identify the grade level(s), or discipline area(s) to be reduced the number of staff to be reduced from each area and the particular employees to be dismissed. The Superintendent shall confine recommendations to personnel assigned to the affected programs or employment areas. When a reduction in force is necessary, the first employees to be dismissed or transferred will be non-tenured persons within the class or personnel being reduced. Non-tenured teachers will be retained when a tenured teacher is terminated only if the tenured teacher is not qualified by certification to assume the responsibilities of the position the non-tenured teacher occupies. The Board shall be responsible for notifying employees of positions for which they qualify to displace another employee.
- e. If more than one legally qualified teacher is being considered for dismissal, the following criteria, in the order stated, will be used to determine which of the teachers will be retained.
 - i. A teacher with standard certification for an open retained position will be given consideration over a teacher with provisional certification.
 - ii. Job performance as defined by a pattern of attendance with the exception of documented cause, illness, or circumstances that result in the employee being unable to fulfill, from time to time, duties due to absence. (A pattern of attendance is to be viewed as a predictable behavior and one that can be detected over a period of time.)
- f. The names of employees reduced in force shall be retained in a school system employment pool for three (3) years. Said personnel shall be given the opportunity in reverse order of their layoff to fill the first employment vacancy for which they are qualified. Said personnel shall accept or reject employment offers under the accepted policies and procedures of the Board. It shall be the responsibility of the employee to maintain on file a current address and telephone number for notification of appropriate vacancies.
- g. A reduction in force constitutes termination of employment and all applicable policies and procedures of the Board shall be followed.
- h. In the notification of termination, the employee shall be informed of all residual benefits, including insurance.

5.26.2 Ancillary and Support Personnel – The Board shall implement the following procedures in the event it becomes necessary to reduce the number of board approved employees.

- a. A reduction in force may take place when the Board determines that a need exists as a result of a decrease in student enrollment, shortage of revenues, or State mandate. Such a determination constitutes the necessary cause for dismissal.

- c. As a prerequisite to all other considerations, the Board shall determine upon the recommendation of the Superintendent the ancillary service areas from which support personnel are to be reduced in force at respective times. For the purpose of reduction in force the following items are identified:
 - i. Ancillary area; Transportation, maintenance, CNP, custodial, secretarial, aide, or non-certificated employees within the school system.
 - ii. Qualified: Any certificate, license, in-service training, or other forms of documentation required by the State or local Board as a prerequisite for placement or advancement in a position.
- d. The Superintendent's recommendation shall identify the ancillary area to be reduced, the number of staff to be reduced from each area and the particular employees to be dismissed. The Superintendent shall confine recommendations to personnel assigned to the affected programs or employment areas. When a reduction in force is necessary, the first employees to be dismissed or transferred will be non-tenured persons within the class of personnel being reduced. Non-tenured employees will be retained when a tenured employee is terminated only if the tenured employee is not currently qualified to assume the responsibilities of the position the non-tenured employee occupies. The Board shall be responsible for notifying employees of positions for which they qualify to displace another employee.
- e. If more than one legally qualified employee is being considered for dismissal, the following criteria, in the order stated, will be used to determine which of the employees will be retained:
 - i. Total years of validated experience in DeKalb County (the employee with the least number of years of experience in DeKalb County reduced or transferred first).
 - ii. Record of participation in professional development activities developed or approved by the Board of Education (employee with the least amount of documented participation to be reduced or transferred first).
 - iii. Documentation by the Board of Education of self-initiated industry/skills upgrading, training, progress toward license or certification, renewal of credentials and the general overall development of skills needed to remain technically competent and current in the open retained position (the employee with the best overall demonstrated self-initiated training will be given preference over the employee with less documented self-initiated training.)
 - iv. Job performance as defined by a pattern of attendance with the exception of documented cause, illness, or circumstances that result in the employee being unable to fulfill, from time to time, duties due to absence. (A pattern of attendance is to be viewed as a predictable behavior and one that can be detected over a period of time.)
- f. The names of employees reduced in force shall be retained in a school system employment pool for three (3) years. Said personnel shall be given the opportunity in reverse order of their transfer/layoffs to fill the first employment vacancy for which they are qualified. Said personnel shall accept or reject employment offers under the accepted

policies and procedures of the Board. It shall be the responsibility of the employee to maintain on file a current address and telephone number for notification of appropriate vacancies.

- g. A reduction in force constitutes termination of employment and all applicable policies and procedures of the Board shall be followed.
- h. In the notification of termination, the employee shall be informed of all residual benefits, including insurance.

5.27 Drug and Alcohol Testing

5.27.1 Employee Drug Testing – The DeKalb County Board of Education in an effort to maintain a safe working environment for employees free from the harmful effects of drugs and alcohol use/abuse, approved the following policy concerning drug testing for employees:

- a. General Guidelines – The Board and the contracted drug screening agency shall utilize, when practical, well established screening procedures and methods which may include those set forth by the Federal Department of Transportation, Procedures for Transportation Workplace Drug Testing Programs, 49 C.F.R. parts 40.1 through 40.39, the Omnibus Transportation Employee Testing Act provided in 49 C.F.R. parts 382, 291, 392 and 395, the Alabama Code and implementing regulations.
- b. An employee, support worker or certified employee is subject to drug testing whenever the Board or its designee (the Superintendent) has reasonable cause to believe the employee is unfit for duty due to drug or alcohol use. Such testing would be at the Board's expense.
- c. If an employee is selected for testing, the employee must arrive at the testing center within two hours of notification by his/her immediate supervisor or designee. If a substitute is required during the travel time to and from testing, the Board will assume the cost of the substitute and will also pay mileage to the employee at the regular mileage rate set by the Board of Education. After any positive test, any additional testing required by the Board will be at the employee's expense.
- d. Substitutes are not regular employees of the Board but may be required to submit to testing at Board expense. After any positive test, any additional testing for a substitute will be at the substitute's expense. Any substitute refusing to submit to testing will be removed from the system's substitute list for the remainder of the school year. Those substitutes who ask to be reinstated must submit to the testing policy.
- e. An approved company contracted by the Board to perform drug and alcohol tests will perform testing. The Board reserves the right to utilize blood, hair, breath, saliva or urinalysis testing procedures or a combination thereof.
- f. Prohibited substances include, but are not limited to alcohol, amphetamines, anabolic steroids, benzodiazepines, methadone, opiates, phencyclidine, propoxyphene, barbiturates, cocaine, cannabinoids, marijuana, hallucinogenic drugs and all drugs which the narcotic and drug abuse laws of the United States, local municipalities, and/or the State of Alabama classify as illegal or controlled. Prohibited substances also include prescribed medications taken by an employee unless medication has been prescribed for the specific employee and is being taken in the dosages specified by the prescribing physician. Violations of the drug/alcohol laws of Alabama and the United States, and violations of the laws concerning drug/alcohol use while the employee is performing their normal job

related duties for the Board will result in disciplinary action by the Board with possible suspension without pay or termination by the Board.

- g. Employees involved in work-related accidents resulting in bodily injury or property damage may be required to submit to drug/alcohol testing. The Board will deny on the job injury status for any employee who is injured on the job and does not immediately report their injury to their immediate supervisor or designee for possible drug testing. After the injury is reported to the school administrator or immediate supervisor, the administrator or supervisor must contact the Superintendent or his designee for permission to test the employee.
- h. Failure to submit to a required drug/alcohol test as stated above is cause for disciplinary action that could result in suspension without pay and/or termination by the Board. Any drug/alcohol rehabilitation program will be at the employee's expense. Employees who return to work after completing a drug or alcohol rehabilitation program are subject to unannounced testing during the first year following their return to work at the employee's expense.
- i. Applicants new to the system or former employees returning to the DeKalb County School System, support and certified, must pass an initial drug screening to be officially employed by the Board as a regular employee. The applicant will be instructed as to the name and location of the testing agency, and the cost of the drug screening will be at the applicant's expense.

This policy is not intended to remove or replace any existing drug testing policy already in place by the DeKalb County Board of Education. A separate policy exists for those who drive county owned vehicles. However, those who drive county owned vehicles are also subject to the above policy.

5.27.2 Testing Types – The Superintendent is directed to establish a testing program whereby all covered employees will be tested for the presence of alcohol and controlled substances. The following tests may be conducted:

- a. Pre-employment Testing – Prior to the first time a covered employee performs a safety-sensitive function for the Board, the employee must undergo testing for alcohol and controlled substances.
- b. Post-accident Testing – Each surviving driver of an accident, as defined by the FHWA, will be tested for alcohol and controlled substances. In addition, covered employees who are involved in an accident involving injury to a person, or property damage in excess of five hundred dollars (\$500.00) will be subject to post-accident testing.
- c. Random Testing – The Board will conduct unannounced random alcohol and controlled substance testing of employees who are authorized to drive county owned vehicles or who hold a safety-sensitive position.
- d. Reasonable Suspicion Testing – An employee must submit to alcohol or controlled substance testing whenever there is reasonable suspicion of alcohol misuse or the use of controlled substances based on specific, contemporaneous, and articulable observations concerning the appearance, behavior, speech, or bodily odors of the employee.
- e. Return-to-Duty Testing – A covered employee must submit to return-to-work alcohol and/or controlled substance test before being permitted to return to work following a positive alcohol or controlled substance test or other violation of this policy or federal regulations.

- f. Follow-up Testing – Any employee who continues performing safety-sensitive functions for the Board, following a determination that the employee requires assistance in resolving problems associated with alcohol misuse or the use of controlled substances, shall be subject to unannounced follow-up alcohol or controlled substance testing as directed by the Board’s substance abuse professional (SAP).

5.28 *Searches (Personnel)*

- 5.28.1 Board Property – All school system property, facilities, and grounds may be entered, inspected, and searched for any lawful purpose by Board officials or their designees at any time, without prior notice and to the fullest extent permitted by law. The right to enter, inspect, and search includes and extends to (but is not limited to) Board owned or controlled offices, desks, file cabinets, lockers, storage areas, computers, files, documents, data, and devices however and wherever kept, stored, or maintained.

Please note that the submission of a complaint does not automatically substantiate that misconduct has occurred. The school administration has the prerogative to investigate any allegations of wrongdoing.

6.13 *Transfer of Rights for Students with Disabilities*

Beginning at least one year before the student reaches the legal age of majority under state law, his/her IEP must include a statement that the student has been informed of his/ her rights that will transfer to the student on reaching the age of majority. In Alabama, educational rights automatically transfer from parent to student at the age of 19. The transfer of rights section of the IEP must be signed by the student at least one year prior to the student's 19th birthday. Once the student turns 19, the public agency must recognize that the educational rights have transferred from parent to student; however, the public agency must continue to provide notice to the parents any time notice is required.

6.14 *Student Code of Conduct*

The Superintendent will prepare and present to the Board for adoption and periodic revision a Student Code of Conduct ("Code"), with input from teachers, school personnel, students, parents and guardians, and other members of the education community and, as appropriate, the community at large. The Code will comprehensively describe the rules and standards of conduct and discipline that will be maintained and enforced within DeKalb County Schools. The Code will set forth the specific grounds for disciplinary action, the penalties, sanctions, or consequences that may be imposed for a violation of the Code, the methods and procedures by which violations of the Code will be determined, and any appeal or review procedures that are available to students. The Code will incorporate applicable statutory and regulatory requirements, and the hearing and appeal procedures specified in the Code will conform to applicable statutory and constitutional standards and requirements. Suspension may also be imposed as a disciplinary measure as provided in the Code of Conduct. Reasonable notice of the proposed action, the reasons therefore, and an opportunity to be heard will be afforded to the student and the student’s parent or guardian prior to a final decision by the Board regarding expulsion. The Superintendent or his designee will notify the student or the student’s parent or guardian, in writing, of any action taken by the Board. The term of an expulsion may extend to the maximum permitted by law. The Board may impose such reasonable limitations on the student’s right to re-enroll in the school system following expiration of expulsion as may be permitted by law. A student who withdraws from school prior to the Board’s consideration of a proposed expulsion may not re-enroll in the school system until the Board holds a hearing or other appropriate proceedings regarding the recommended expulsion. In-School Suspension includes the Alternative Program, available for students in grades 5-12, depending upon the seriousness of the offense and before and after-school suspension. 6.22 *Seclusion and Restraint – All Students*

6.22.1 Policy and Purpose

- a. DeKalb County Schools System acknowledges that maintaining a school environment conducive to learning requires that the environment be orderly and safe. Accordingly, the system recognizes that physical restraint of a student may sometimes be necessary in order to protect the student or other individuals.
- b. The purpose of this policy is to provide for the appropriate use of physical restraint only when needed to protect a student and/or member of the school community from imminent, serious physical harm, to prevent or minimize any harm to a student as a result of the use of physical restraint, and to prohibit other inappropriate forms of restraint.
- c. It is the intent of this policy to emphasize and encourage the use of techniques for the prevention and de-escalation of inappropriate behavior, in order to reduce the risk of injury to students and program staff, as well as facilitate the care, safety, and welfare of students.

6.22.2 Definitions

- a. **Physical Restraint** is direct physical contact from an adult that prevents or significantly restricts a student's movement. The term physical restraint does not include mechanical restraint or chemical restraint. Additionally, physical restraint does not include: providing limited physical contact and/or redirection to a student in order to promote safety or to prevent self-injurious behavior; providing physical guidance or prompting to a student when teaching a skill; redirecting attention; providing guidance to a location; providing comfort; or providing limited physical contact as reasonably needed to prevent imminent destruction to school or another person's property.

The term also does not include seatbelts and other safety equipment when used to secure students during transportation.
- d. **Seclusion** is a procedure that isolates and confines the student in a separate, locked area until he or she is no longer an immediate danger to themselves or others. Seclusion occurs in a specifically constructed or designated room or space that is physically isolated from common areas and from which the student is physically prevented from leaving. Seclusion does not include situations in which a staff member trained in the use of de-escalation techniques or restraint is physically present in the same unlocked room as the

student; time-out as defined herein; in-school suspension; detention; or a student-requested break in a different location in the room or in a separate room.

- e. **Time-out** is a behavioral intervention in which the student is temporarily removed from the learning activity. Time-out is appropriately used and is not deemed to be seclusion when:
- The non-locking setting used for time-out is appropriately lighted, ventilated, and heated or cooled. The duration of the time-out is reasonable in light of the purpose of the time-out and the age of the child; however, each time-out should not exceed 45 minutes.
 - The student is reasonably monitored by an attending adult who is in reasonably physical proximity of the student and has sight of the student while in time-out.
 - The time-out space is free of objects that unreasonably expose the student or others to harm.

6.22.3 Prohibitions

- a. The use of the physical restraint is prohibited in the school system and its educational programs except in those situations in which the student is an immediate danger to himself or others and the student is not responsive to reasonably implemented and less intensive behavioral interventions, such as verbal directives and other de-escalation techniques. Physical restraint as a form of discipline or punishment is prohibited.
- b. All physical restraint must be immediately terminated when the student is deemed to no longer be an immediate danger to them self or others or if the student is observed to be in severe distress during the restraint. Any method of physical restraint in which physical pressure is applied to the student's body in such a manner as to restrict the flow of air into the student's lungs is prohibited in the school system and its educational programs.
- c. The use of chemical restraint is prohibited in the school system and its educational programs.

The training of designated staff members will be based on evidence-based techniques and strategies when possible. Physical restraint is prohibited when used as a form of discipline or punishment. The use of other physical restraint, chemical restraint, mechanical restraint, or seclusion is prohibited in the school system and its educational programs. The use of restraint may occur along with other emergency actions such as the school seeking assistance from law enforcement and/or emergency medical personnel which could result in a removal of the student by such personnel. Significant violations of the law including assaults on students and staff will be reported to the police. The Superintendent (or designee) will develop a device usage agreement that must be signed by the student and their guardian prior to receiving One-to-One gear. The Superintendent (or designee) has the authority to develop appropriate procedures to include fees, distribution, collection, student responsibility, and other requirements of the program. 6.27 Supervision of Low-Risk Juvenile Sex Offenders Policy

Pursuant to *Annalyn's Law*, the Superintendent shall be notified by local law enforcement when a low-risk juvenile sex offender is enrolled or attending school within the board's jurisdiction for the purpose of appropriate supervision during the school day and during school activities.

Section 1. Definitions

In this policy, these terms shall have the following meanings:

- (a) "Plan" refers to the "individualized student safety plan" developed following the Student's adjudication and/or enrollment in the school to serve as a behavior contract between the Student and the School.
- (b) "School" refers to "all school property and school-sponsored functions including, but not limited to, classroom instructional time, assemblies, athletic events, extracurricular activities, and school bus transportation" related to the Student's current school of record.
- (c) "Student" refers to "the low-risk juvenile sex offender" designated by a juvenile court judge as having a low risk of re-offense.
- (d) "Teachers and staff with supervision over the student" or "Supervision team" refers to school officials or staff who have a specific responsibility for the Student, including the school principal, the Student's assigned teachers and/or coaches, the Student's counselor, and if applicable, the Student's bus driver, during the subject school year and who will be privy to information regarding the Student's status.

Teachers and staff with only passing and/or general contact with the Student shall not be privy to information regarding the Student's status.

(e) "Victim" refers to the victim, if known by and attending the same school as the Student, of the offense for which the Student was adjudicated delinquent.

Section 2. Notification

(a) Current Students

In the event a currently enrolled Student is adjudicated delinquent and designated "low risk" by the juvenile court, local law enforcement is expected to notify the local Superintendent and principal of the Student's school in writing.

(b) Newly Enrolled Students

In the event a Student seeks to enroll in the district as a new student and that Student has been previously designated as a low-risk juvenile sex offender, local law enforcement is expected to notify the local Superintendent and principal of the Student's school in writing.

(c) Students That Change Schools Within the District

In the event a currently enrolled Student transfers to another school in the district or is promoted to another school in the district, the principal of the original school should notify designated law enforcement of the change as soon as practicable.

Following that notification, the principal of the original school should orally or in writing brief the principal of the new school regarding the original Plan and the transferring Student's status and circumstances. Regardless, the principal of the prior school must provide the Student's records and Safety Plan to the principal of the new school as soon as practicable.

The new principal should review the Plan and meet with the Student, the Student's parent or guardian, and the anticipated new Supervision Team to determine whether the current terms are sufficient or should be adjusted based on the Student's circumstances.

(d) School Staff Changes

In the event the principal or a member of the Supervision Team leaves his/her position or is no longer responsible for supervising the Student, a replacement team member should be named, if necessary and appropriate, and briefed by the principal or the most senior member of the Supervision Team regarding the Student's status and Plan.

The Student, his/her parent or guardian, and other members of the Supervision Team should be notified of changes to the Supervision Team within a reasonable timeframe.

Section 3. Plan Development and Maintenance

Upon proper notification from law enforcement, the Student's principal or designee will call together the anticipated Supervision Team to meet with the Student and/or the Student's parent or guardian to develop an appropriate Plan. This meeting should take place within ten (10) school days or as soon as practicable. In the event the Student's parent or guardian is unable or unwilling to meet, the principal or designee and the Supervision Team should meet with the Student within a reasonable timeframe to develop an appropriate Plan.

In the event the Victim attends the same school as the Student, the plan should include measures to reduce the likelihood of Victim and Student interaction.

The terms of the Plan and any updates to it must be memorialized in writing and approved by the principal or designee before being distributed to the Student and the Student's parent or guardian, as well as the Supervision Team.

The principal or designee should meet with the Student, the Student's parent or guardian, and the Supervision Team at least annually, but as often as deemed necessary by the principal or designee to assess the Student's status and to determine whether adjustments should be made to the Plan.

Section 4. Supervision

The Student will be subject to the general Student Code of Conduct and any other conditions deemed necessary by the principal or designee as incorporated in the Student's Plan.

Members of the Supervision Team should report any suspected violations of the Plan to the principal or designee.

If school personnel are in possession of a digital device during the administration of an ACAP test, the device may be confiscated and, if the appropriate administrator determines that there is reasonable suspicion that the device was used to capture, record, or share test information or to facilitate cheating on the test, it may subject to search pursuant to LEA policy for any information directly related to the ACAP test being administered. Additionally, school personnel shall be dismissed from testing, and students' tests may be invalidated in accordance with ACAP policy. Violation(s) may result in disciplinary action by the district and by the Alabama State Department

of Education (ALSDE), up to and including possible employment termination and certification revocation.

- Student Policy - Students shall not possess any digital device within the testing room when participating in ACAP testing. **The possession of a digital device by students participating in ACAP testing is strictly prohibited during the administration of a test.** The ONLY exception to this policy is for students who have been pre-approved by the Building Test Coordinator or the Principal to have a digital device that is necessary for the health and/or well-being of the student.

If students are in possession of a digital device that is within their reach during the administration of an ACAP test, the device will be confiscated and, if the appropriate administrator determines that there is reasonable suspicion that the device was used to capture, record, or share test information or to facilitate cheating on the test, it may be subject to search pursuant to district policy for any information directly related to the ACAP test being administered. Additionally, the student will be dismissed from testing immediately and the test may be invalidated in accordance with ACAP policy. Violation(s) may result in disciplinary action by the district in accordance with the disciplinary policy.

- 7.4.4 Final Examinations – Final examinations may be used to evaluate student achievement when conducted in such a way that they effectively estimate the achievement of the goals and objectives on which learning activities have been based. All students in grades 7-12 may take a semester examination for each course. All semester examinations will be administered according to a schedule recommended by the Superintendent. First nine weeks will count 45% of semester grade. Second nine weeks will count 45% and Semester Test (exam) will count 10%. If no semester exam is given, each nine-weeks will count 50% of the semester grade.

- 7.4.5 Student Progress/Report Cards – It is the policy of the DeKalb County Board of Education that reports concerning student progress shall be made to the parent or legal guardian of all students on a regularly scheduled basis. Individual schools shall make additional or supplementary reports to the parent or legal guardian of a student when in the opinion of the Principal and professional staff members, the situation warrants such reports. Such situations may include, but are not limited to, outstanding academic achievement, outstanding citizenship, poor academic performance and continuing inappropriate behavior. Teachers shall complete student progress reports twice per nine-weeks grading period. One is a "Progress Notice" and the other is the Report Card.

Progress Report: At the end of four and one-half weeks of instruction, teachers are to prepare and send home a progress notice for each student. The progress notice should state the student's class performance based on an average of his/her class work and test grades up to that date.

Report Card: Student report cards will be sent home at the end of each nine week

grading period. The report card should state the student's class performance based on an average of his/her class work and test grades up to that date.

Report cards shall be made available to students no later than the fifth day following the end of the nine weeks' grading period.

7.4.6 Promotion and Retention – The DeKalb County Board of Education shall require pupil promotion and retention in the schools to be based upon an evaluation of each pupil's achievement in terms of appropriate instructional goals. Promotion and retention of students shall be in accordance with minimum standards, which in addition to the student's achievement shall also take into account the student's emotional and social development. Pupils meeting the minimum standards and other criteria established shall be eligible for promotion and/or credit. Regulations set by the Board and the State Board of Education shall also be met in order to receive credit. Pupils who do not satisfactorily achieve established objectives for the grade to which they are assigned, may be retained. Pupil retention shall be used as one procedure to provide pupils with additional time to master the skills required for success in the next higher grade. The Board recognizes the vital importance of reading in today's society. The ability to read promotes success in other academic areas, heightens a student's self-concept, and opens new worlds of opportunity and experience through reading the written word. Therefore, failure in reading will be a primary factor in retention. LEP students cannot be retained if language is determined to be the factor for retention. Refer to the EL guidelines for the retention of LEP students.

7.4.7 Acceleration Program – The DeKalb County School System has an Acceleration Program for grade level and individual class promotions. See Student Handbook: Subject or Grade Acceleration Procedures or contact the ANNEX at (256) 638-4131 for more information.

A student who must attend summer school in order to graduate will be given the appropriate diploma upon completion of work. Students will be provided courses essential for attainment of diplomas so that requirements may be completed within a four-year period. See Student Handbook for a list of courses required for diploma requirements and graduation eligibility criteria.

Students who have satisfactorily completed requisite course work, met minimum attendance criteria, and passed required examinations are eligible for graduation. Student participation in graduation ceremonies and related graduation activities will be subject to the principal's approval and payment of outstanding financial obligations. Participation in a graduation-related ceremony may be prohibited by the principal if the student violates disciplinary standards or if, in the judgment of the principal, the student's participation could lead or contribute to disorder or disruption of the ceremony or activity.

Parents are encouraged to discuss with the teacher any questions or problems which might affect the child's performance. Parent conferences shall be scheduled at times when teachers are not engaged in classroom instruction.

7.5.2 Parent-Teacher Conferences – Parent-Teacher conferences are recommended beginning in the elementary grades. The student's course work should be planned and the role of each person should be defined. During this process, the individual program

of studies for the student would be developed. For high school students, this planning process should take place on a broad scale prior to the student's entering the ninth grade. As the student approaches the end of the eighth grade, a program of studies should be developed which outlines the objectives of that individual's high school academic work. Schools may arrange for specific dates for conferences each year after the regular school day at which time parents are invited to the school.

7.5.3 Parent-Principal Conferences – Parent-Principal conferences are arranged by Principal when necessary for discussion of absences, disciplinary problems, or other educational matters. 7.5.4 Parental Involvement – The DeKalb County Board of Education recognizes that a child's education is a responsibility shared by the school and family during the entire period the child spends in school. To support the goals of the school district to educate all students effectively, the schools and parents must work as knowledgeable partners. Parental involvement encompasses the mutually supportive interaction between parents and educators. The parent and family involvement program will be comprehensive and coordinated in nature and will include, but not be limited to, the following:

Announcement of the Parental Involvement Day (Open House-School Discovery Program, etc.) shall be made known to parents during the first two months of the school term, included on the school calendar, and announced through school newsletters or websites, and in other ways in order to make sure that everyone is aware of this opportunity.

Training and appropriate resources will be provided for teachers, administrators, and parents to strengthen the ability of strong parent-school partnerships to enhance student achievement. Parents will be involved in jointly developing appropriate parental involvement policies and in reviewing school improvement through meetings with the school system's Parent Advisory Committee. Policies developed through this process will be distributed to parents of students attending Title I schools. Additionally, the Board will provide coordination, technical assistance,

This information will be reviewed annually and used to make revisions to the school system plan as necessary.

To the extent practicable, all information required under Section 1111 of the Elementary and Secondary Education Act (“ESEA”), 20 U.S.C. §6301 *et seq.*, will be provided to parents in a uniform, understandable format and upon request, in an alternative format and language that the parents understand.
- 7.5.9 Elementary and Secondary Education Act – The school system will work with its schools to ensure that school-level parental involvement policies meet the requirements of section 1118(b) of the ESEA and each includes a school-parent compact consistent with section 1118(d) of the ESEA. After receiving the completed form, the principal and library media specialist shall meet with the complainant to discuss the complaint.

If the complaint is not resolved at the meeting with the principal and the library media specialist, the complainant may request that the Library Committee consider the complaint.

7.11.6 Library Committee -When a review committee is established by the local school to

handle complaints concerning media center materials, the library committee may be composed of:

- A principal,
- Media specialist,
- Subject area specialists (teachers)
- Community member
- Student

The committee's charge shall be:

- To review the material and prepare a written report containing conclusions and recommendations within 30 days;
- To direct a written report to the principal and the library media specialist; and
- To send the complainant a copy of the report.

The library committee shall:

- Examine and evaluate the material as a whole; consider the district's policy, procedure, and philosophy for selection of media center materials; and weigh strengths and weaknesses and form opinions based upon the selection criteria and the considerations for library media center materials.
- If the complainant is dissatisfied with the committee's recommendation, an appeal of the decision may be made to the Board of Education for a hearing and final decision. If an appeal is requested by the complainant, the superintendent shall request the Board schedule an appeal and shall prepare in advance of the appeal all appropriate documentation for the Board's study.
- Challenged materials shall not be removed from use during the review period.

7.11.7 Considerations for Review of Library Media Center Materials -Schools are concerned with generating understanding of American freedoms and with the preservation of these freedoms through the development of informed and responsible citizens. To this end, the Board asserts that its responsibility for instructional materials and school library material is as follows:

- To provide materials that will enrich and support the curriculum, taking into consideration the varied interest, abilities, and maturity levels of the students served;
- To provide materials that will stimulate growth in factual knowledge, literary appreciation, aesthetic values, and ethical standards;
- To provide a background of information that will enable students to make intelligent judgments in their daily lives;
- To provide materials on opposing sides of controversial issues so that young citizens may develop under guidance the practice of critical reading and thinking;

- To provide materials representative of the many religious, ethnic, and cultural groups and their contributions to the American heritage; and
- To place principle above personal opinion and reason above prejudice in the selection of materials of the highest quality in order to assure a comprehensive collection appropriate for the users of the library media center.

7.11.8 Request for Review of Library Media Center Materials

Copyright Regulations (See Appendix A)

The library media specialist will provide and post copyright guidelines for all users of the library media center and will include explanation of the guidelines in instruction to students. Copyright and fair use guidelines will be posted in appropriate locations throughout the schools, near copiers, printers, and digital copying devices.

It is illegal to duplicate any material, whether it is music, art, or literary in nature, without the authorization of the copyright holder. However, the government has recognized the need for what is called “fair use” of materials in the educational setting. Under this set of laws, it is possible to legally copy materials if not done for profit. Each individual teacher is responsible for his own conduct and compliance to the fair use laws. The library media specialist should provide annual professional development training concerning copyright information for faculty members. If teachers have questions, they should ask their individual school’s authority on the subject or their superintendent about the policies.

Under the “fair use” guidelines, copies can be made for the purpose of news reporting, criticism, comment, and teaching. Before copying, these factors should be taken into account:

- Purpose and character of use (cannot be profit)
- The nature of the copyrighted work
- Amount of the work being copied
- Effect of the copying on the market value of the material

7.11.9 Library Media Center Program - The library media center is an essential part of the school’s educational program and is an active center of the instructional program. The media center is organized to stimulate interest and thinking and is conducive to study. The media center provides resources for instructional and recreational needs selected in relation to the school’s program of instruction, and the needs, interests, and abilities of all stakeholders.

The library media program provides guidance to promote learning, aid in instruction, and facilitates the use of media resources. The media center provides materials which meet the needs of students and teachers and can be used with class instruction, group learning, and individual exploration. The media center may also supply the equipment needed to use the available resources. The media center provides adequate working areas for students, faculty, and staff.

The library media center program is the heart of the school’s efforts to develop a constructivist approach to teaching and learning. It is the school’s mission to provide an

effective library media program which will positively affect student achievement.

7.11.10 Materials Selection and Acquisition - The Board of Education of DeKalb County is legally and ultimately responsible for the collections of school library materials, print, non-print, and digital, and should assure that funding is available to support the media programs. The Board of Education delegates the selection of these materials to certified, professional media specialists working in cooperation with stakeholders within each school setting. Each school principal shall have final responsibility for the library media center collection.

Collection development in a school media center is an on-going, continuous process led by the professional library media personnel and involving supervisors, principals, teachers, students, and parents using the materials.

Selection Guidelines

- Religion – All major religions may be represented in factual, unbiased material.
- Science – Medical and scientific knowledge material may be included in the collection in items having factual, reliable content.
- Ideologies – Materials of controversial ideology or philosophy which exert a strong force in society may be represented in the collection.
- Human sexuality – Sexual incidents appearing in material does not automatically exclude a material, but pornographic, sensational, or titillating materials are not included.
- Profanity – Care is taken to exclude material using profanity in a lewd or detrimental manner, but materials are not excluded from the collection because they contain profanity.
- Audio-visual and digital content – Materials in these formats will be selected using the same criteria as that for print items.
- Library media committee – Each school shall have at least one media committee consisting of a principal, a library media specialist, two teachers, a student, and a parent. The committee should be knowledgeable about the district policies for selection of materials and the procedures for reconsideration of school library media center materials. The committee may be called upon to assess and approve the budget, to evaluate the policies and make recommendations for changes, to suggest materials for purchase, to evaluate newly acquired materials, and to assist in the reconsideration of challenged materials.

7.11.11 Acquisitions Procedure - Each school media specialist will make decisions for acquiring library media materials after consulting reputable, professionally prepared selection aids available online or in print. These may include but not be limited to

professional journals, periodicals, trade shows, annotated catalogs, and recommended reading lists.

Suggestions for purchases should be encouraged and elicited from the media center's stakeholders. Such suggestions should then be judged by the selection criteria before purchase.

Multiple items of outstanding and frequently used materials may be purchased as needed. Obsolete, unused, and worn items should be withdrawn from the collection and replaced as needed.

Items purchased with library media funds should be kept in the library media collection rather than placed in classrooms permanently.

Specific steps for procuring library media materials may be dictated by the funding source. Each library media specialist will work closely with the district and local bookkeepers to assure that the proper steps to acquisition are followed including involving the library committee in adoption of a budget.

- 7.11.12 Cataloging of Resources - Materials purchased for the schools in DeKalb County will be processed in a timely manner and according to acceptable, standardized library policies. Automated library management programs are used for the cataloging of print, non-print, and digital media in all DeKalb County Schools.

Each library media center's collection is classified according to the Dewey Decimal Classification and Relative Index. MARC records are used and may be acquired with the materials, through the automated management system from outside sources, or entered manually by the library media specialist. The Sears List of Subject Headings is most often used for subject authority.

Cataloging designations for the school library media centers may vary from school to school, but most include the main collections of Reference (Ref), Fiction (F), Story Collection/Short Stories (SC), Non-Fiction (000-999), Biography (B), and Picture Books/Easy Readers (E). All contain a collection for audio-visual items (including digital formats), equipment, and special groups of materials. Library media center materials are labeled with barcodes. Books have spine labels and school identification stamps or marks are placed on all materials.

7.11.13 Collection Development

a. Processing of Materials

The procedure by which school library materials are processed will be the decision of the media specialist at each school. Each school library should have a carefully planned policy and set of procedures in place to make the task of getting materials on the shelves in a timely manner a standardized process. Processing checklists for each material type should be followed in order to ensure easy and quick access of acquired materials for all patrons. All DeKalb County schools have automated library software. However, not every school uses the same software. For this reason, procedures for procuring material records should also be established by each library's media specialist.

b. Weeding of Materials

The library media collection will be continually evaluated and weeded of

material that no longer meets the evaluative criteria or the needs of the school and its curriculum. Weeding is a necessary component of collection development that will provide enhancement of the school media center's reputation for reliability, revitalization of the collection's appearance, updating of the collection, and overall improvement of the library services through a collection of quality.

The following criteria should be considered in weeding materials from the collection:

- If the resource is misleading or factually inaccurate.
- If the resource is aesthetically unappealing or beyond repair due to age and/or use.
- If newer, up-to-date editions of the resource are available for a reasonable price.
- If the resource has no apparent educational value.
- If the resource's value decreases due to curriculum changes and/or changing school district needs.

7.11.14 Circulation of Resources - All school media centers in the DeKalb County School system have an automated, integrated, and networked library catalog and circulation system. Because each school community is different, decisions concerning specific circulation policies will be determined and established by the media center specialist at each school. These decisions include, but are not limited to, the number of library materials patrons may checkout, length of checkout periods, frequency of media center visits, fines, and class scheduling.

Media center staff should be readily available to answer general information questions, assist patrons with book selection, help with research, and aid in the use of technology. Students should be supervised by adult media center staff at all times while in the media center.

7.11.15 Internet Access and Acceptable Use - Each school library media center shall provide access to system-provided internet services on an equitable basis to all patrons who follow the Technology Acceptable Use policies set by the DeKalb County Board of Education. Policies are in place for members of the school staff and for students and are made public by the Board. The LMS should be familiar with the policies and be prepared to educate the library patrons about those policies.

Media center specialists should follow the state curriculum guidelines in teaching internet and social media safety and the use of available technology within the school. The media specialist should model appropriate, acceptable use of the Internet.

7.11.16 Media Center Schedules - The library media center specialist, with the assistance of the administrator, should set the schedule for the media center at each school. The schedule should be posted and available at all times within the school. The library media center should not be closed for non-library purposes without administrative approval. Schools with grades K-2 should have a scheduled time for

classes to meet with the library media specialist to read aloud stories and teach library skills. The schedule should provide opportunities for open access to the library media center resources.

The library media specialist should collaborate with teachers to schedule time for research and other ways to enhance the curriculum. Ample time during the school day should be provided for the media specialist to complete administrative tasks while patrons continue to use the facility. If an aide is not provided, students may be taught how to check in and out their own books when necessary. Student aides and community volunteers may be trained to assist with circulation procedures. The library media specialist should have a scheduled lunch break.

7.11.17 Personnel - Competent, skilled library media personnel support and enhance the curriculum and contribute to student achievement. Indicators:

- Each school system shall have a library media supervisor to mentor school library media specialists and to facilitate communication between the Alabama Department of Education and the school library media specialist
- Employs media specialists who have an earned graduate degree in their assigned field from an institution recognized by a U.S. regional accrediting agency
- Local school systems are required to place library media units where they are earned and under the supervision of the administration.
- Library media paraprofessionals are placed where they are earned and are under the supervision of the school administrator and the library media specialist.
- Job descriptions are developed in accordance with Alabama Department of Education standards.
- Forty percent of the library media specialist's time is spent daily in management of the library media center.
- A public relations plan is essential to promote advocacy for the library media program.
- A library media advisory committee is chaired by the library media specialist and is comprised of at least one each of the following:
 - a. Administrator
 - b. Department/grade representative
 - c. Student
 - d. Parent
 - e. Community member

7.11.18 Budget - The school library media specialist collaborates with the local school district/system and administrators to ensure that funds are budgeted to maintain the library media program.

Indicators:

- The library media center must have adequate, consistent, and sustained funding.
- The Alabama Code must be followed in the expenditure of state library enhancement funds.
- Budgeting procedures for library enhancement funds, as stated by the Alabama Department of Education, must be followed.
- State, national, and regional accreditation standards; school curriculum; and collection assessment are required in the budgeting process of the library media center.
- The library media specialist must maintain accurate budget records. These records should be retained for a minimum of three years.
- The library media specialist should prepare annual reports. These documents should be retained for a minimum of three years.
- The library media advisory committee, administration, and faculty assist in the budget process.

7.11.19 Library Media Center Equipment – The library media center may maintain a collection of audiovisual and technology equipment appropriate to meet the needs of the school. This equipment may include CD/DVD players/writers, televisions, projection devices, computers, iPads, special printers, laminators, and other equipment to meet the teaching and learning styles of the school’s patrons. The library media specialist should plan for and coordinate the acquisition, circulation, repair, and disposition of media center equipment. A current inventory of all equipment in the library media center should be maintained by the media specialist.

The library media specialist should provide training for the faculty and staff in the proper use and care of the school’s media center equipment. Library media specialists may diagnose problems with technology equipment to determine if the problem can be resolved in-house. A problem beyond the expertise of the media specialist should be submitted as a work order to the school technology coordinator or the system IT Department.

7.11.20 Public Relations and Advocacy – The library media specialist at each school will work to maintain a welcoming environment for students, faculty, and parents. The specialist will communicate to the public library policies, hours of operation, and any events or promotions occurring. The media specialist is encouraged to use a variety of methods of communication including, but not limited to, websites, social media, fliers, brochures, school phone messaging system, and local newspapers. Media specialists should strive to be involved members of the school faculty by serving on school committees, collaborating with teachers, and providing leadership in professional development training.

7.11.21 Assessments – The library media center program should be routinely assessed, involving input from representatives of all stakeholders. The collection of materials

should be continually assessed by the library media specialist. The library media specialist will be evaluated as prescribed by the state mandates for teachers and education professionals.

Such assessments shall be in place with a written plan from the Board. All school library media centers should be under the direction of competent, skilled library media personnel at the system level in order to enhance the curriculum and contribute to student achievement.

7.11.22 Donations and Gifts – Once donated, gifts become the legal property of the school library media center. The use and disposition of such materials will be the decision of the library media specialist. Monetary donations will be accepted and appreciated for the purchase of library materials. If the donor does not request specific titles to be purchased, the material selections will be at the discretion of the library media specialist and will follow selection criteria guidelines.

A donation label will be placed in all donated materials. Such labels may indicate the donor's name, the date of donation, or a designation of remembrance.

We have a special obligation to ensure the free flow of information and ideas to present and future generations.

The principles of this Code are expressed in broad statements to guide ethical decision making. These statements provide a framework; they cannot and do not dictate conduct to cover particular situations.

- a. We provide the highest level of service to all library users through appropriate and usefully organized resources; equitable service policies; equitable access; and accurate, unbiased, and courteous responses to all requests.
- b. We uphold the principles of intellectual freedom and resist all efforts to censor library resources.
- c. We protect each library user's right to privacy and confidentiality with respect to information sought or received and resources consulted, borrowed, acquired or transmitted.
- d. We respect intellectual property rights and advocate balance between the interests of information users and rights holders.

VIII. Transportation

8.1 General Transportation

The DeKalb County Board of Education recognizes that a safe and efficient school bus service for students is important to the success of the school program. The Board of Education's goal is to provide this service at a cost tax-payers can afford. Students who live one mile or more from the closest school and all students with disabilities will be provided with bus service. Students will be the only persons to ride the school bus to and from school and to school related events (field trips/athletic events), with the exception of board employees, and authorized persons, where space is available.

- School buses shall travel roads maintained by Federal, State, County, or City Government **and private roads where public access is intended. (Private roads intended for public access will be determined by a County road sign with an exclusive, identifying number or name.)**
- No bus will be allowed to travel a private road intended for public access which does not meet the minimum standards set by the DeKalb County Board of Education.
- A private road will be subject to inspection to determine if minimum standards exist for safe and mechanically sound bus operation. The scoring procedure will contain standards approved by the DeKalb County Board of Education and scored by the Transportation Supervisor in conjunction with the local bus supervising principal, a representative of the DeKalb County road department, or a designee of the Superintendent.
- Once a private road receives a failing score the property owner will be notified in writing and given 60 days to improve road conditions. If the private road fails a second inspection, either at the end of the 60-day period or any other time during the current school year (the year in which the failing score was received), buses will not travel the failing road for the remainder of the current school year and must pass inspection to be reinstated. Reinstatement inspection must be requested by the property owner in writing.
- Any new private road intended for public access added to a bus route must have a trial trip performed in a school bus.
- A school bus shall not travel over roads or bridges that are hazardous to the lives of students or driver.
- The fee for using buses for extracurricular events is to follow the state rate per mile. Mileage is to begin at the home school and end at the driver's home or station.
- Field Trips/Athletic Events: Permits for regularly scheduled athletic games do not require the signature of superintendent but must be completed by Principal and given to driver, with extra copies retained for files and submitted to the Central Office for payment purposes.
- Junior High athletic trips require regular permit from Principal. Forms are furnished to

- all schools. Proper records must be maintained.
- Students must have parents' written permission to make any trip. Principals will provide forms.
 - Administrators shall assign buses for extracurricular trips. It is the trip driver's responsibility to pick up and return to the regular driver's home a cleaned and refueled bus for the next school day. Repair needs should be reported promptly to Bus Garage.
 - Route Changes: The Transportation Supervisor shall be authorized to make necessary bus route changes and decisions regarding requests for changes in line with Board policies. The Transportation Supervisor shall authorize all initial bus stops and approve any stop changes. Drivers are not authorized to swap buses without permission from the Transportation Supervisor except in an extreme emergency. This does not include spare buses.
 - Inclement Weather: In the event of a school closing for any reason, the DeKalb County School System's Central Office will notify the media by 5:30 a.m. to broadcast or televise details of the situation. All parents, students and employees of the DeKalb County School System shall listen to reports from area radio and TV stations. If a driver knows it would be hazardous to run their route, he or she should immediately notify the Principal and Transportation Supervisor of the fact.
 - Emergency Evacuation: A school bus may be evacuated when a driver or designee deems it necessary for the safety of all passengers. All passengers must be moved a safe distance from bus and remain there until it has been determined that no danger exists.
 - Use of Buses by Individuals or Groups. Liability insurance prohibits the use of school buses by anyone other than the Board of Education.
 - Students who drive cars or ride bicycles or motor scooters to school must park in a designated area and leave vehicles there until school is out. Decals will be required for all motorized vehicles. A fee may be charged.
 - Students MUST possess license to drive as required by law.
 - A Duplicate set of bus keys will be kept secure by Principal. Driver is not responsible for cost. The Bus Garage will provide keys.
 - Bus Rodeo: Transportation Supervisor will make arrangements, contacts, etc. to provide a driving range for drivers to practice for State competition, preferably at the Bus Garage.
 - Any/all drivers who have an accident involving property damage must submit to a drug test. The Transportation Supervisor is to be notified immediately if the drug test is needed after normal working hours/nights/weekends.

8.2 Roles and Responsibilities

8.2.1 School District Responsibility

- Establish the policies and procedures by which the program functions.
- Establish pupil regulations governing the behavior and safety of pupils at the bus stop and while boarding, riding and disembarking from the school bus. The rules students are expected to follow should be limited in number and posted in the bus and made available to all riders.
- Institute and administer an instructional program that teaches pupils proper conduct and safety procedures.

- Conduct a training program for school bus drivers to ensure that all policies, procedures, regulations and their enforcement are understood. Ensure that parents receive written copies of the bus rules and regulations. Clearly establish their roles and obligations with respect to pupil promptness, attitude and behavior.
- Initiate procedures to ensure open lines of communication and cooperation between all people involved in pupil transportation including state agencies.
- Train drivers in specific skills that will enable them to maintain order safety and respect for the rights of others. These skills should include at least the following:

- The Principal shall see that buildings are comfortable and open upon proper bus arrival time.
- To see that each bus making extra trips has at least one teacher or adult employee as a chaperone to each bus. On extra trips, it is encouraged that buses carrying more than twenty students have at least two chaperones, with one being seated in the back of the bus.
- Written permission from the local school administrator or designee shall be required in order for a driver to allow a student to get on or off the bus at any bus stop other than the regularly assigned stop.
- Written permission from the local school administrator or designee shall be required before a student is allowed to ride any bus other than their regularly assigned bus.
- Ensure that parents receive written copies of the bus rules and regulations that clearly establish their roles and obligation with respect to pupil promptness, attitude and behavior.
- The Principal shall see that proper records are kept and accurate reports made when due.
- The Principal shall report any problems related to bus stops or bus routing to the Transportation Supervisor.
- The Principal shall be responsible for seeing that no bus is taken from the school grounds by anyone without a permit for special purposes. Buses are to remain on the school grounds during the day unless such authorization to remove is granted to the driver.
- To see that only students ride the bus.

8.2.3 Student and Parent Responsibility

The students are under the authority of the Principal. The driver of the bus is responsible for student behavior. Transportation to and from school and related events

is a privilege. It shall be the responsibility of the students to conduct themselves like ladies and gentlemen at all times while riding school buses. Rules of conduct established by the DeKalb County School Board are:

- a. Student shall follow directions of the driver the first time given.
- b. Student shall arrive at the bus stop before the bus arrives.
- c. Student shall wait in a safe place, clear of traffic and away from where the bus stops.

- u. Unnecessary conversation with driver of the bus shall be avoided.
- v. Students transported to the Technology School will observe all rules and regulations pertaining to school transportation. Suspension from one school bus applies to the other.
- w. Students are prohibited from:
 - Sitting in or on parked buses during the day.
 - Cleaning the bus unless they are responsible for littering or causing the bus to be unclean.

- Putting fuel into the bus and or any other servicing of bus.
- x. The driver shall immediately report any and all violations of the above to Principal for action.
 - y. It is the responsibility of the parents or guardians to study, inquire, and understand the policies and rules of the Board of Education.
 - z. It is the responsibility of the parents or guardians to ensure that their children know and obey all rules/regulations and to respect the driver and the rights and safety of the others.
 - aa. Parents or guardians of all students making approved trip shall sign a form giving their permission for the child to ride on the school bus. This releases the Superintendent, members of the County Board of Education and their employees from any liabilities for any injury sustained by the child while participating in the activity, or riding a school bus to and from the said activity (signed forms must be on File in the Principal's office), where proven negligence is not a factor.
 - bb. Any damage done to a school bus on special trips, beyond normal wear and tear, shall be paid for by the particular school (damages caused by a wreck or driver not included). The specific amounts to be determined would depend on whether students from several schools were involved, in the event of an organizational/club trip, etc.
 - cc. Students shall be ready to board bus at the scheduled time. No bus driver shall repeatedly wait for a student at a stop. A warning shall be given to the student the first time this happens. The second time the driver will advise the student that the bus shall not wait again. A report shall be made to Principal. When a student moves during the school year and the bus no longer needs to travel that road, the driver of that school bus has the responsibility to report that fact to the Transportation Supervisor.

The employee is to attempt to first contact their immediate supervisor(s), or appropriate official, but in the event this is not possible, the prudent discretion of a responsible adult is to be the guiding factor in determining who shall be notified.

8.6 Weather Conditions

- a. Be alert for sudden changes in the weather.
- b. A Tornado Watch means that the weather conditions are favorable for the development of tornadoes. But no tornadoes have been reported by the general public or indicated by the National Weather Service radar. Bus drivers need to review their

responsibilities regarding severe weather procedures and the safety of the school children.

- c. A Tornado Warning means that a tornado has been reported on the weather radar or reported as being seen by an individual. If you spot a tornado funnel or if you hear a tornado warning, take immediate emergency action. School buses may NOT run during a tornado warning. Some suggested emergency procedures are:
 - If you are at school, escort the children back to shelter in the school immediately.
 - If you are driving when you hear a tornado warning or spot a funnel cloud, stop the bus. Escort the children to the nearest ravine, ditch, underpass or a low spot in the terrain (but far enough away from the bus so that high wind will not roll it over onto the students). Have the student assume the protective position (drop onto their elbows and knees, and cover the backs of their heads with their hands, coats or jackets.)
 - If you are driving when you hear a tornado warning or spot a funnel cloud and there is no time to move the children when you stop the bus, have the students assume the protective position with their heads below the school bus window level.
- d. In case of extremely foggy conditions, you should be able to see at least the distance of your headlight beams. If this is not possible, bring the bus to a safe location and call the Transportation Supervisor for guidance.
- e. Should the bus become entangled in a power line, driver and all students are to remain in the bus. Anyone getting out will become grounded and suffer electrical shock. Stay in the bus and summon help.
- f. Do Not Drive Across Floodwater On Roads.

8.7 Transportation to Field Trips and Athletic Events

The DeKalb County Board of Education has authorized the use of school buses for field trips and athletic events under the conditions outlined below:

- For approved trips inside the state, buses may be used after a trip permit has been approved and signed by the superintendent. Requests must be made several days in advance of trip, including short trips. Requests should come from the Principal and proper records kept of mileage for payment purposes.
- Permits for regularly scheduled athletic games do not require the signature of the superintendent but must be completed by the Principal and given to the bus driver, with extra copies retained for files and submitted to the Central Office for payment purposes. Junior high athletic trips require a regular permit from the Principal. Forms are furnished to all schools. Proper records must be maintained. A request for approval of an out of state trip requires ten days' notice.
- Students must have parents' written permission to make any trip. Principals will provide forms.
- Use of bus for trip shall not prevent regular transportation of children to and from school on established routes.

- One or more teachers, Principals or designee shall ride the bus on its entire trip and shall ensure that school bus conduct rules are abided by.
- All students who ride on special trips shall be enrolled in the school as a participating member of the group named in the request and must comply with approved rules of conduct and responsibilities of students. School officials, employees and an adequate number of official chaperons (at least one must be an adult employee of the board), designated by the Principal, may accompany students on the bus.
- Parents or guardians of all students making approved trip shall sign a form giving their permission for the child to ride on the school bus. This releases the Superintendent, members of the County Board of Education, and their employees from any liabilities for any injury sustained by the child while participating in the activity, or riding a school bus to and from the said activity (signed forms must be on file in the Principal's office), where proven negligence is not a factor.
- Any damage done to a school bus on special trips, beyond normal wear and tear, shall be paid for by the particular school (damages caused by a wreck or driver not included). The specific amounts to be determined would depend on whether the students from several schools were involved, in the event of an organizational/club trip, etc.
- Payment of state rate per mile (beginning and ending at the home school of the bus used) will be paid to the DeKalb County Board of Education. The Board will prepare monthly bills for all trips and send to the schools. All payments made to the Board of Education shall be in the form of a check drawn from the local school account and made payable to the DeKalb County Board of Education. Cash will not be accepted.
- Use of Private Vehicles - A van with a capacity of more than 10 requires regular state inspections and a CDL licensed driver. When transporting students to school related events, it is not recommended that anyone use private vehicles that carry more than 7 passengers. Seat belts must be provided.
- Monthly Report of Extra Trips. Monthly report for bus drivers must be made to the school Principal's office and turned in with the monthly payroll. Drivers may then check with the school secretary, if necessary, to determine which trips are included in paycheck.
- Overnight or extended trips will be subject to Principal/supervisor/driver agreement to prearranged terms.
- Any trip that requires a driver to leave before his/her regular route is completed must fill out a Non-Professional Leave Request form that must be signed by the administrator. This approval allows the driver to receive his/her regular route pay.
- Bus drivers for extracurricular trips will be paid a minimum of \$12.00 per hour but not less than \$24.00 per trip in accordance with the FLSA (Fair Labor Standards Act). Hourly rates will apply from 10 minutes before the time of departure (for pre-trip inspection and fueling), from the home school, until the bus returns to the home school. Regular drivers at the school will be given an opportunity to drive extra trips. Volunteer drivers, club sponsors, or coaches (with appropriate CDL and approved by the Transportation Supervisor) may drive buses to school sponsored activities. (Effective August 2022)

8.7.1 Use of School Buses - The liability involved, along with requirements of the Board's insurance policy, prohibits the use of school buses for purposes other than regular transportation of students to and from school and school events. No one other than driver and students are approved to be transported unless specifically authorized by the Transportation Supervisor or Superintendent.

8.8 Emergency Preparedness

8.8.1 Emergency Equipment

The DeKalb County Public School System requires each school bus to be equipped with the following emergency equipment:

- a. Fire Extinguisher.
- b. First Aid Kit, including latex gloves.
- c. Bodily Fluid Cleanup Kit.
- d. Emergency Reflectors/Flares.

8.8.2 Emergency Evacuation

a. Reasons for Emergency Evacuation of School Bus.

- Fire or danger of fire - If you suspect fire anywhere on your school bus, the bus should be stopped and evacuated immediately. All passengers should move away from the bus as indicated in the instructions and remain there until the driver has determined that no danger exists. If the school bus is unable to move and is close to existing fire or highly combustible materials, the “danger of fire” should be assumed and all passengers evacuated.
- Unsafe location - If the school bus is stopped in an unsafe location or is unable to proceed, the driver should determine if the students would be safer outside the bus or remaining inside.
- The bus **MUST BE EVACUATED** in the following circumstances.
 - Should the bus become disabled in the path of any train or near any railroad tracks, evacuate the bus immediately and notify the police and Transportation Department.
 - If your bus should come to rest near a body of water or over a bluff where it might shift, it must be evacuated.
 - A disabled bus should be visible for approximately 300 feet in normal traffic conditions. This may not be true for a position over a hill or around a curve where the visibility does not meet recommended distances. That should be considered a requirement for immediate evacuation.

b. Preliminary Planning

- Driver is the one to decide what to do or not to do, when to do and how to do. The decisions must be made calmly and quickly.
- There will be excitement; however, the driver is in command and cannot show nervousness or lack of self-confidence. Remain calm.
- Among the first decision to be made is whether to evacuate the students.

- Will they be safer inside or outside the Bus?

8.8.3 Evacuation Drills

a. Instructions and Pupil Training

- Purpose: Prepare everyone to meet highly irregular and dangerous circumstances in as calm and rational a manner as possible.
- In all drills: NO ONE DOES ANYTHING WITHOUT THE DRIVER'S COMMAND.
- Students must know that in real life situations, they would have to use some initiative if driver and student leaders were unable to give directions.
- If students must leave the bus, they must be calm and quiet.
- Explain that rushing will not save time; it will only cause more problems.
- Noise may keep them from hearing instructions.
- Passengers help one another, but no one is to pull or grab another.
- A helper may extend a hand for the other person to take at exits.
- Children are to stay together at a location at least 100 feet outside the bus, out of any danger.
- Explain to the students that emergency procedures are important to them and, in the event of real trouble, they will know what is expected and what to do.

b. Steps to take in Emergency Evacuation Drills

- Objective: Get students off the bus in a SAFE and ORDERLY manner and in the shortest time necessary to assure safety and order
- Select regular student leaders and instruct them as follows:
 - Turn off the ignition switch.
 - Set the emergency brake.
 - Get help and know how to do so.
 - Open emergency doors and windows.
 - Set flares and reflectors.
 - Open and close doors and account for all pupils passing their stations.
 - Help small children off the bus.
 - Follow all instructions promptly and correctly.

Important: all drivers should have written permission from a parent for the child to be assigned as a student leader.

Driver stays on the bus throughout the drill.

Note: Special training, preparation, and drills shall be arranged, as necessary, to assist students with disabilities.

8.8.4 Types of Evacuations

1. Front door evacuation

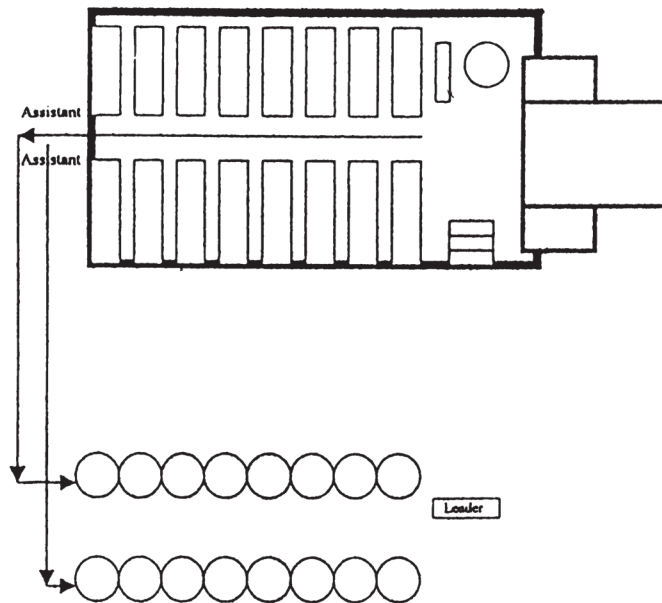

Personnel needed - Three (one leader and two assistants).
Student participation - All students.

Appoint two assistants, one for each side of the door. These assistants will count students and assist them in getting off the bus.

Appoint one student to lead the other students to a point 100 feet or 40 paces from the bus.

2. Rear floor-level evacuation

Personnel needed - Three (one leader and two assistants).

Student participation - All students.

- Appoint two assistants, one for each side (outside) of the emergency door. These assistants will stand on each side of the exit door with one hand held at shoulder height, palms up.
- Students leaving the bus place their hands on those of the assistants for support in jumping to the ground. Assistants DO NOT grasp the jumper's hand.
- Appoint one student to lead the other students to a point 100 feet or 40 paces from the bus.
- These three students are to be seated in the left rear seat.

8.9 ***Precautionary Measures***

8.9.1 Safety Sticker Procedure

This procedure is in place to ensure all students have exited the bus.

After unloading bus in the morning, driver shall check bus to make sure no child has been left on the bus. Upon determining that all children have exited, a sticker shall be placed in the rear door window of bus. This sticker shall be removed upon departure in the afternoon and the procedure repeated at the end of the day to make sure no child is left on the bus. This procedure is in place for bus models 2007 and older.

8.9.3 Precautionary Procedures for Drivers

8.9.3.1 Accidents:

a. Major Causes of Accidents

- Backing.
- Following too closely.
- Failure to yield right of way.
- Turns.

If your bus is involved in an accident, the following procedures shall be followed:

- Secure your bus - Plan your course of action.
- Check for injured students on your bus and, if practical, check passengers in the vehicle.
- Always have local law enforcement agency dispatched to the scene of the accident. If there are injuries, report it when calling police. To protect the System as well as you as an individual, the police shall be notified. Under no circumstances are you to leave the scene of an accident without it being properly investigated by the local law enforcement agency.
- Do not move your vehicle until the police arrive.
- Notify the Transportation Supervisor/Department or have someone

phone for you with all necessary information - bus number, school, accident location, injuries, condition of bus, need for wrecker, etc.

- Notify your school(s) or have someone phone for you.
- Police should give you a form with information on others involved. If not, ask for this information to be provided in order for you to report to Transportation Supervisor.
- At no time should you admit fault for the accident. Do not discuss an accident with anyone except police officer, Transportation Supervisor or school administrator. The system insurance carrier could possibly contact you for a statement concerning your accident. Before giving any information to anyone, you should verify with the Transportation Supervisor or other designated personnel. This is for your protection as well as that of the system.
- You are required to come to the Transportation office as soon as possible (no later than the next working day) to file a written accident report on the form provided (TR-III). All information shall be included on the form, along with your signature. All other necessary paperwork shall be handled through the Transportation Office.

b. Highway Driving Speeds

Drivers should obey posted speed limits and observe road condition at all times.

c. Backing the Bus

Back-ups should be avoided if at all possible, however many routes require this maneuver.

If you must back up, remember these steps:

- Carefully observe the backup area as you approach.
- Help -Ask a responsible student to assist you from inside the rear of the bus by watching for any objects behind the bus.
- Hazard lights-Activate before you start to back.
- Horn-Gently tap your horn before you start back.
- Back up slowly
- Use your outside flat mirrors to back.
- If you are unsure of your position, pull up and begin backup maneuver again.
- Buses are not to be backed up on school grounds unless absolutely necessary.
- Always back with students on board bus. At a stop requiring you to back your bus, load your students first and then back your bus. During the unloading procedure, make your back up maneuver FIRST and then unload your students. Never back your bus with students on the ground.

d. Breakdowns:

- Mechanical problems on the bus route or while on educational excursions during regular hours (6:00 a.m. - 5:00 p.m.) shall require the driver to notify the Transportation Department at 845-3711 for assistance. Assistance after hours (and on weekends and holidays) shall be provided by calling the Transportation Supervisor.
- Your school(s) shall be notified if you expect to be late for loading or unloading students. If you need the Transportation Department to contact the school(s) involved, the driver must make this request known.
- The bus shall always remain at the breakdown location as reported to the Transportation Department. If a mechanic has not corrected the problem, the bus will probably break down somewhere else along your route. It is impossible to make timely repairs if the mechanic is searching for the bus.
- You are responsible for the safety of your passengers. The following procedures may prove helpful during this time:
 - The bus shall be secured in a safe location. Reflectors shall be used if necessary.
 - Students shall be evacuated ONLY if bus is in an unsafe place, there is fire or threat of fire and they would be safer away from the bus.
 - The driver shall not leave the bus unattended.

e. Bridges:

All bridges on bus routes shall be of sufficient tonnage to assure safety for the bus to cross. If uncertain about specific bridge on bus route, driver is to contact the Transportation Supervisor who will work with the DeKalb County Commission in determining the condition of the bridge. (NOTE: Check on your bus for the GVWR, located in the driver's area on a metal plate. This is the weight of your bus).

8.10 Loading and Unloading Procedures

Statistics indicate more children are injured or killed during loading or unloading. The following steps should be followed in order to safeguard your precious cargo while they are outside the bus.

- a. Use rapid eye movements to constantly monitor the traffic around you during the entire loading or unloading process. You **MUST** be aware of the actions of the traffic in the vicinity of your bus stop.
- b. Activate your overhead amber warning lights approximately 300 feet from your bus stop. This warns traffic around you that the bus will make a stop very soon.
- c. Bring your bus to a complete stop. Open the passenger door slightly in order to

- activate the red lights and stop arms. Traffic should now be stopped.
- d. The bus should be stopped approximately 6 - 8 feet from the actual stop. You should NEVER anticipate a child's movements. By stopping away from the children, it is less likely that a child may fall or be pushed under the front wheels.
 - e. When all traffic has stopped, open the door to allow the students to enter bus.
 - f. If your students live on the opposite side of the street, require them to wait there until they can cross with the protection of the red lights and stop arms. A special "hand signal" or "head movement" can be used as a signal to your students when the "coast is clear" and ALL TRAFFIC has stopped. Only at this time should they attempt to cross the street.
 - g. Once your students have entered the bus in an orderly manner, make sure all passengers are seated before the bus is placed into motion.
 - h. Check traffic adjacent to the stop. Release parking brakes and close the passenger door.
 - i. In unloading your students, basic operating procedures are the same.
 - j. However, there are several additional key points to remember. You should count your students as they unload, making sure all students are clear of the bus and other traffic. The students should be in a safe location off the road- way before the bus is placed in motion.
 - k. All students should cross in front of the bus upon signal from driver.

8.10.1 Unloading from Front of the Bus

- a. Stop the bus in a pre-selected location on the school grounds away from traffic. Note: Be sure that ample adult supervision is at the location before drill is held.
- b. Shut off the engine and secure the parking brake.
- c. Place the transmission in park.
- d. Remove the ignition key.
- e. Stand, open the front door, face the children and get their attention.
- f. Give the command; "Front Door Emergency Evacuation Drill-Remain Seated."
- g. Direct the two helpers to their place beside the front door.
- h. Stand between the first occupied seats, facing the front of the bus.
- i. Starting with the right-hand seat, ask the leader to lead all students 100 feet or 40 paces from the bus and instruct the other occupants of the right seats to follow.
- j. Hold your hand before the occupants of the left-hand seat in a restraining gesture.
- k. When the pupils in the right-hand seats have moved forward in the aisle, dismiss the occupants of the left-hand seats.
- l. Continue the evacuation procedure as described, right and left seats alternately, until the bus is empty.

The face value of a check returned for insufficient funds (NSF) is considered a bad debt and may not be absorbed as a cost by the state, federal or public local funds. The principal at each school is to exercise due diligence in the acceptance of checks and in the collection of NSF checks. A list of individuals who have submitted bad checks is to be maintained in order to prevent the receipt of any further checks from those individuals.

Each local school is to take necessary actions to collect the check amount and must document those actions and procedures approved by the DeKalb County Board of Education required by DeKalb County District Attorney's Worthless Check Unit. Once it is determined that all normal collection procedures have failed, the writer of the check is given a ten-day notice to tender payment for the face value of each check plus a thirty dollar NFS fee for each check returned whether collected or not. If payment is not received within the ten days, the check and all documentation is turned over to the proper authorities for criminal prosecution. The fees collected are to be maintained in a nonpublic fund source designated for transfer of funds to CNP at each local school.

The fund is to be maintained to cover expenses incurred in collection of bad debts as worthless checks and to loan money to students needing additional money to purchase a school meal. If a check is determined to be uncollectible, the nonpublic fund source or General Fund may be utilized to transfer funds to the Child Nutrition Program to cover the amount of the NSF check written to CNP. If either fund is used to transfer money, the school must have documentation on file to reflect transfers to CNP funds as reimbursement for NSF checks that were not recovered.

It is required that the manager of the Child Nutrition Program at that school or his/her designee, who is familiar with the kitchen and equipment, be present when the organization is using the kitchen facilities.

The organization using the facility will be responsible for paying a charge of \$50.00 rent for the facility and that rent shall be deposited into the Child Nutrition Program fund of that school. The rent is to be given to the Child Nutrition Program manager or his/her designee who is present at the function. Deposit of rent is to be made along with the next working day's deposit.

The organization using the facility will also be responsible for paying the Child Nutrition Program employee(s) assisting with their function, 1-1/2 times the employee's regular hourly salary or \$50 whichever is greater. This payment is in addition to any rent due for the facility, and shall be given directly to the CNP employee(s) at the time of service.

Payment for Child Nutrition Program employee(s) working at a school sponsored function where expense is to be paid from a local school account, such as a sports banquet, shall paid at 1-1/2 times the employee's regular hourly salary or \$50, whichever is greater. 9.7.13 Used Equipment Disposal

The outside sale of such items as used oil, empty cans, used equipment, etc., will be sold between the DeKalb County Board of Education and the outside agency. Individual sale by any school person to an outside agency or other school person is prohibited. Bid procedures shall be followed for all used equipment. Bid procedures will also be followed in disposing of used CNP items.

9.8 Meal Information

9.8.1 Meal Charges

Unpaid meal charges are viewed by the United States Dept. of Agriculture (USDA) as bad debts. Bad debts must be written off as operating losses; this particular operating loss may not be absorbed by the non-profit school food service account (NSFSA), but must be restored using non-Federal funds. Due to DeKalb County Schools sponsoring the USDA Community Eligibility Provision (CEP), one reimbursable meal for breakfast and lunch will be available at no cost to all enrolled students in our district each day. However, students will NOT be allowed to charge for second meals or a la carte items and adults will NOT be allowed to charge for any meals/a la carte items. Therefore, no charges should occur within the Child

Nutrition Program.

9.8.2 Meal Prices

9.8.2.1 For Students and Visitors

All students and visitors shall pay board approved price for their meals.

9.8.2.2 For Employees

Non-CNP employees, such as teachers, maintenance employees, secretaries, aides, bus drivers, principals, custodians, central office staff, and other certificated and support employees shall pay board approved price for their meals.

9.8.3 Lunch Account Information

All school Child Nutrition Programs are computerized and provide students the opportunity to pay into their personal meal accounts. Deposits to meal accounts can be made either at the school or online at www.dekalbk12.org. A detailed listing of meals/items purchased is available at any time from the school CNP Manager and low-balance letters can also be provided. Money in an account at the end of school may be held on account for the opening of next school year or may be returned to parents.

9.8.4 Meal Requirements for Reimbursement

Students may select five, four, or three components of a complete Lunch for the price set by the DeKalb County Board of Education. A complete Lunch includes one Entree, a choice of two vegetables and/or fruits, bread, and choice of milk. Customers choosing not to take the minimum three components will be charged board approved ala carte/extra item prices for each item taken. One of the three components must be a fruit or vegetable.

Child Nutrition Program employees assigned to operate point-of-sale terminals shall be able to identify a reimbursable meal, and for all purchases shall charge board approved prices to all customers, including teachers, other board employees, and visitors.

9.8.5 Meal Restrictions

All students, including students with disabilities, with food and/or milk allergies or who have other food restrictions must have a medical physician's prescription on file in order to have the diet honored.

Federal law prohibits the Child Nutrition Program from providing food or beverage substitutions for students without a medical diagnosis by a medical doctor stating acceptable substitute items.

9.8.6 Food Allergies

The DeKalb County School System strives to ensure that all children with disabilities have the same opportunities as other children to receive an education and education benefits, such as school meals. Generally, children with food allergies or food intolerances are usually not considered disabled. A school may, but is not required to, make food substitutions for foods identified as allergies or intolerances. This will be done on a case by case basis when the condition is certified by an authorized medical authority. When in a licensed physician's assessment, food allergies may result in severe life threatening (anaphylactic) reactions, the child's condition would meet the definition of a "disability" and the substitutions prescribed

by the licensed physician will be made without deliberation.

Children with disabilities who require changes to the basic meal are required to provide documentation with accompanying instructions from a licensed physician. This medical statement must include:

- 1) Diagnosis - as an identification of the medical disability or other special dietary conditions which restricts the child's diet
- 2) The major life activity affected by the disability
- 3) The food or foods to be omitted from the child's diet
- 4) The food or choice of foods to be substituted
- 5) The licensed physician's signature
- 6) The parent may be required to provide photographs of the child for identification in various areas of the school as a safety measure

It is important that all recommendations for accommodation or changes to existing diet prescriptions be updated yearly to reflect the current dietary needs of the child as part of their student record. Each school's Child Nutrition Program will provide a safe non allergic meal to the child if it is determined that the condition is disabling. Food items sold strictly on an "a la carte" basis or through the snack bar are not subject to the program regulation.

A ban on food or food product within the school system is not realistic. According to Anne Munoz-Furlong founder of the Food Allergy Network, banning a product so there is no problem is an unrealistic approach and stigmatizes allergic students who are often taunted by their classmates. A realistic approach is to provide teachers, parents, students, and Child Nutrition Program workers with accurate information pertaining to the seriousness of food allergies. Parents should assume the responsibility of helping their children understand the dangers of the food allergy. Parents must work with the school team to develop a plan that accommodates the child's needs throughout the school, school activities, and on the school bus. The Child Nutrition Program provides for the student with allergies and special dietary requirements by performing the following tasks:

- 1) Accommodates students having a food allergy disability with an appropriate meal
- 2) Informs teachers and other staff about food allergies
- 3) Requests that the school nurse instruct additional personnel how to administer emergency shots
- 4) Provides for a supervised "allergy" table in the cafeteria
- 5) Instructs students not to swap lunches or share food
- 6) Encourages students to wash their hands following each meal and snack
- 7) Provides for the needs of each child on a case by case basis

This will reduce the possibility of a child having a food allergy reaction and improve our ability to deal with an allergic reaction if it occurs.

9.8.7 Offer Vs. Serve

Breakfast

The child Nutrition Program must offer choices from the following four food groups:

1. Meat/meat alternate
2. Grain/bread
3. ½ Cup Fruit, Vegetable, or Juice
4. Milk

Customers have the choice to serve/select only three of the four food group choices offered,

however one of the three choices must be a fruit or vegetable. It should be noted that instead of offering a serving of meat/meat alternate and a grain/bread serving, two servings of either is approved at breakfast. A minimum of three of the four food choices must be on a customer's tray at the point-of-sale in order to meet USDA breakfast requirements and meal/item price criteria set by the DeKalb County Board of Education.

Lunch

The child Nutrition Program must offer the following five food component choices from the four food groups listed below:

1. Meat/meat alternate
2. Grain/bread
3. ½ cup Fruit
4. ½ cup Vegetable
5. Milk

Customers have the choice to serve/select as few as three of the five food group choices offered, however one of the choices must be a fruit or vegetable. 9.10 *CNP Professional Development*

9.10.1 CNP PD Standards

USDA has established minimum professional standards requirements for school nutrition

professionals who manage and operate the National School Lunch and School Breakfast Programs. The standards, another key provision of the Healthy, Hunger-Free Kids Acts of 2010 (HHFKA), aim to institute minimum education standards for new state and local school nutrition directors as well as annual training standards for all school nutrition professionals. These standards will ensure school nutrition personnel have the knowledge, training, and tools they need to plan, prepare, and purchase healthy products to create nutritious, safe, and enjoyable school meals. Required training hours for DeKalb County Child Nutrition are as follows:

Director: 15 hours per year

Managers: 2 Mandated Professional Days

All Other Staff: 2 Mandated Professional Days

Part-Time Staff: 2 Mandated Professional Days

Mandated Professional Days must be equal to a full work day (7 hours). The Child Nutrition Director will offer two (2) professional days of training (14 hours). If any employee cannot or does not attend the provided trainings, the employee will be required to obtain the mandated hours on their own time.

In addition to the above requirements, all staff, cashiers, and substitutes are required to have one (1) hour of civil rights training. Also all staff, cashiers and substitutes are required to have the following training each year: HACCP & Food Safety, Cashier Training (Substitutes are not required), Equipment training, Child nutrition Section of Policy Manual training, and Back & Lifting training. These hours can count toward the fourteen (14) required hours per year.

9.10.2 Other PD Opportunities

Professional development opportunities not provided by the school district during paid in-service days are at the employee's option to participate. Some of these professional development opportunities have a salary bonus attached while others do not. In order to receive the salary bonus, the employee must meet all necessary requirements.

Other professional development opportunities are provided through colleges, health department, and other organizations.

9.10.3 Professional Associations

School Nutrition Association (SNA) and/or Alabama Association (ASNA)

A key purpose of the School Nutrition Association (SNA) national level, and/or the Alabama School Nutrition Association (ASNA) state level, is to develop and encourage the highest standards in school food service and nutrition programs and provide educational opportunities to ensure the professional development of its members. SNA/ASNA has been guiding members in their professional development for over 25 years through its certification program. The program provides a career ladder that you can use to progress in the field

whether you are an entry-level employee or manager of a school Child Nutrition Program who one day may want to become a director of a district-wide program. SNA/ASNA, like many other professional associations, has adopted certification as a way to recognize professional achievement. Certification refers to a formalized process of evaluation by which an association grants recognition to an individual who has met the association's educational and experiential standards. ASFSA has established certification standards for academic education, specialized training and work experience as conditions of being awarded certification, and has established standards for continuing education as a condition of retaining certification. Contact ASNA at 1- 800-877-8822 for further details. The DeKalb County Board of Education provides a bonus to CNP employees for SNA certification. See SNA Certification Bonus for more information.

9.10.4 Work/In-Service Days

10.4 HIV/AIDS

DEKALB COUNTY BOARD OF EDUCATION POLICY STATEMENT ON HIV/AIDS

Preamble:

Adapted from suggested policy by the National Association of State Boards of Education, 1996.

The DeKalb County School System shall strive to protect the health and safety of children and youth in our care, as well as their families, our employees, and the general public. Staff members shall cooperate with public health authorities to promote these goals.

The evidence is overwhelming that the risk of transmitting Human Immunodeficiency Virus (HIV) is extremely low in school settings when current guidelines are followed. The presence of a person living with HIV infection or diagnosed with Acquired Immunodeficiency Syndrome (AIDS) poses no significant risk to others in school, day care, or school athletic settings.

10.4.1 School Attendance - A student with HIV infection has the same right to attend school and receive services as any other student, and will be subject to the same rules and policies. HIV infection shall not factor into decisions concerning class assignments, privileges, or participation in any school-sponsored activity.

School authorities shall determine the educational placement of a student known to be infected with HIV on a case-by-case basis by following established policies and procedures for students with chronic health problems or students with disabilities. Decision-makers must consult with the student's physician and parent/guardian; respect the student's and family's privacy rights; and reassesses the placement if there is a change in the student's needs for accommodations or services.

10.4.2 Employment -The DeKalb County School System does not discriminate on the basis of HIV infection or association with another person with HIV infection. An employee with HIV infection is welcome to continue working as long as he or she is able to perform the essential functions of the position, with reasonable accommodation if necessary.

10.4.3 Privacy and Confidentiality - Students or staff members are not required to disclose HIV infection status to anyone in the education system. HIV antibody testing is not required.

Every employee shall treat as highly confidential any knowledge or speculation concerning the HIV status of a student or other staff member. Violation of medical privacy is cause for disciplinary action, criminal prosecution, and /or personal liability for a civil suit.

The right to individual privacy is protected by the 14th Amendment; therefore, certain information about the student or the employee must be secure and protected. All health records, notes, and other documents that reference a person's HIV status shall be kept in a secure and confidential file apart from any student record or employee file. HIV status will not be added to a student's permanent educational record without written consent.

No information regarding a person's HIV status may be divulged to any individual or organization without a court order or the informed, written, signed, and dated consent of the person with HIV infection (or the parent/guardian of a legal minor). The written consent must specify the name of the recipient of the information and the purpose for disclosure.

10.4.4 Infection Control - School employees must consistently follow infection control guidelines in all settings and at all times both on and off school property. This includes playgrounds, school buses, sporting events, and school functions off campus. Schools shall operate according to the standards set forth by the U.S. Occupational Health and Safety Administration for the prevention of blood-borne infections. Equipment and supplies needed to apply the infection control guidelines shall be maintained and kept reasonably available. A school staff member shall alert the school nurse if a student's health condition or behavior presents reasonable risk of transmitting any infection (i.e. bleeding, biting, scratching, or other risky behaviors).

If a situation occurs at school in which a person might have been exposed to an infectious agent, such as an instance of blood to blood contact, school authorities shall counsel that person (or, if a minor, alert the parent/guardian) to seek appropriate medical evaluation.

10.4.5 HIV and Athletics - Participation in physical education, athletic programs, competitive sports and recess is not contingent on a person's HIV status. Reasonable accommodations should be made to allow students living with HIV infection to participate in school-sponsored physical activities.

All employees shall consistently adhere to infection control guidelines in locker rooms and all play and athletic settings. Rulebooks will reflect these guidelines. First aid kits shall be on hand at every athletic event.

All physical education teachers and athletic program staff shall complete an approved first aid and injury prevention course. This includes implementation of infection control guidelines and student orientation about safety on the playing field

10.4.6 HIV Prevention Education - The goals of HIV prevention education are to promote healthful living and discourage the behaviors that put people at risk of acquiring HIV. The Alabama State Board of Education mandates instruction in AIDS education grades 5 through 12.

Parents and guardians shall have convenient opportunities to preview all HIV prevention curricula and material. School staff members shall assist parents or guardians who ask for help discussing HIV infection with their children. If a parent or guardian submits a written request to a Principal that a child NOT receive instruction in a specific HIV prevention topic at school, and assures that the topics will be discussed at home or elsewhere, the child shall be excused without penalty.

10.4.7 Related Services - Students shall have access to voluntary, confidential, age and developmentally appropriate counseling about matters related to HIV infection.

10.4.8 Staff Development - All school staff members will participate in a planned HIV education program that conveys factual and current information; provides guidance on infection control procedures; informs about current law and state, district, and school policies concerning HIV; assists staff to maintain productive parent and community relations; and includes annual review sessions.

Students shall be instructed in pedestrian safety and the importance of precautionary measures with regard to potential kidnappings and child abuse. Direction for a comprehensive Health Program shall be provided by the Nurse Supervisor and assistants.

10.6 Other Health Related Issues in The School Setting

10.6.1 Food Allergies

See the Food Allergies under the Child Nutrition Program

10.6.2 Individualized Health Care Plans

The registered school nurse will develop an individualized health care plan for students with chronic health problems. For example, individualized health care plans will be written for students who have diabetes, asthma, anaphylactic reactions, seizures etc. The individualized health care plan helps to ensure a better understanding of the student's health needs and is directly reviewed with school personnel with a "need to know".

10.6.3 Medications

The following is a summary of the DeKalb County Board of Education Medication Policy.

1. Student's Responsibilities:

- a. Students will not deliver medications to the school.
- b. Students may self-medicate only when they have met the criteria for self-administration according to policy.
- c. Students who have doctor's authorization to have medication on their person i.e. asthma inhalers, or epi-pens, will not share medication with other students.
- d. Students will notify their teacher/school personnel at the onset of any distress or allergic reaction. The student will know where medication is kept and be familiar with personal action plan.

2. Parent's Responsibilities:

- a. The parent/guardian at home will give most medication. Medication prescribed for three times a day should be given at home, just before leaving for school, upon returning home in the afternoon, and at bedtime. The only exception to this schedule is medication that must be given before or along with meals. Contact the principal if there are other special conditions that need to be taken under consideration. The first dose of a new medication should not be given at school in case of an

allergic reaction.

- b. The parent/guardian will obtain a signed statement from a licensed prescriber that includes the name of the student, name of the medication with the dosage, route, frequency and time of administration. The statement needs to include the date of the order and the discontinuation date if applicable. Any known drug allergies or reactions are to be recorded. If the medication order is changed during the school year, an updated, signed prescriber statement is necessary.
- c. The parent/guardian must sign a consent form before medication is given at school. This authorizes school personnel to administer the medication during the school hours.
- d. The parent/guardian should bring the medication in a correctly labeled pharmacy container that includes the student's name, name of medication, strength, dosage, time interval, route and date of drug's expiration as appropriate. If the parent provides sample medication from the health care provider's office, the sample should have specific written instructions. Non-prescription medication must be in the original container with the student's name written on it.
- e. The parent/guardian will supply any equipment that will be needed in administering medication such as a measuring cup.
- f. When the medication is complete, out of date, or at the end of the school year, parents will need to pick up any unused medicine. Medication not picked up by the parents will be destroyed in the presence of a witness by the principal, his/her designee, or school nurse.

3. School's Responsibility

- a. The principal and the school nurse will designate and train specific personnel who shall ensure the **correct** student gets the **correct** medication, in the **correct** dosage, by the **correct** route, at the **correct** interval, and with the **correct** documentation.
- b. Medication is to be stored in the original pharmacy container. Medication is to be stored in a secure locked clean container or cabinet. Medications requiring refrigeration should be refrigerated in a secure area, not easily accessible by students. Medication should not be stored in food storage areas. No more than a 6-week supply of medication should be stored at school.
- c. The administration of medication is a serious procedure. Physician's orders and written procedures should be strictly followed.
- d. Students may have side effects from the medication that will require attention.
- e. The first dose of a new medication should not be given at school in case of an allergic reaction.
- f. Oral medication should not be administered to a student who is vomiting or has recently vomited.
- g. Two people must count controlled substance drugs. If in doubt whether

the medication is a controlled substance or not, count the medication and record on the administration record.

- h. Medication not picked up at the end of the school year will be destroyed in the presence of a witness.

10.6.4 Screenings

1. Vision and Hearing

Vision and hearing are essential senses for learning. Vision and Hearing Screenings will be conducted on a referral basis and a preselected grade/s will have mass screenings conducted. Screening is not diagnostic. Children who fail the screening will be referred for a professional exam, diagnosis and treatment. Screening will not identify every child who needs to be referred, nor will every child who is referred require treatment. In addition to detecting problems, these screenings are valuable in raising the awareness of parents, teachers and the community of the importance of annual eye care.

2. Spinal Screenings

The goal is that children having spinal deformities be detected early and placed under medical care before serious disability and deformity occur. The program is designed to screen children at school and to teach students and their parents about spinal deformities.

3. Scoliosis, the medical term for lateral curvature of the spine, is a common disorder.

Between five and ten percent of school children have spinal curves. It is slightly more common in girls than boys and has its onset usually about ages ten to twelve. About 85 percent of curves are idiopathic (of unknown origin), although there appears to be a strong familial tendency in the idiopathic group.

In addition to scoliosis, kyphosis, or "humpback," and lordosis, sometimes referred to as "swayback," can be seen in the same age groups to be screened. Kyphosis and lordosis are much less common than scoliosis.

Although most curvatures are of minor consequence, progressive spinal deformity may lead to crippling spine deformity and heart and lung problems: therefore, early detection and treatment are essential. When detected early, treatment with a brace may prevent the progression of the deformity and may prevent the need for surgery. When detected late, surgery may be necessary.

Spinal deformities, in the early years, often go undetected because of the painless onset. Unless the condition is severe, it will not be visible to parents or others in the fully clothed child. Parents cannot be expected to detect the curve at an early state. Early detection, however, can be accomplished by mass screening of the critical age groups by trained personnel. Therefore, all school children in grades 5, 6, 7, 8 and 9 (ages 11 through 14) should be screened once a year for this potential problem.

10.6.5 Mental and Physical Exams For Employees

Employees will be notified when screenings are available.

10.6.6 Anaphylaxis Preparedness Program

The DeKalb County Board of Education will have an Anaphylaxis Preparedness Program,

which will be available on the district's website.

10.6.7 Safe Schools Seizure Policy

The Nursing Supervisor will have the authority to delegate to unlicensed school personnel in the school setting or school activity the administration of pre-measured medication for treatment of a seizure to students. The nursing supervisor will keep a list of trained school personnel. The district will use the ALSDE Alabama Health Services Curriculum as a guide for training and implementation. A copy of the ALSDE Alabama Health Services Curriculum is available on the district website.

10.7 *Emergency Care (Resuscitation)*

It is the intent of the DeKalb County Board of Education to provide such life sustaining emergency medical care to students as may appear to be necessary and appropriate.

10.8 *Automated External Defibrillator (AED)*

On-site responders are more likely to arrive quickly than the Emergency Medical Services (EMS) to incidents of "sudden death". Therefore, by equipping and training employees in the use of AEDs we will increase the potential to save lives through AED intervention. Recommended response to potential sudden death incidents:

1. Assess the scene for safety before approaching the victim.
2. Determine responsiveness/level of consciousness (tap and shout).
3. Activate the Emergency Action Plan:
 - a. Dial 911.
 - b. Send a "runner" to retrieve the AED.
 - c. Alert administration of emergency by "runner", phone, intercom, or 2-way radio.
 - d. Notify family as soon as possible without delaying rescue efforts.
4. CPR-trained individuals will assess the victim and, if needed, begin CPR until the AED arrives. Observe Universal Precautions.
5. Turn on AED: Follow voice prompts.
6. When EMS arrives release the care of the victim to EMS.
7. Determine if family members have been notified of transport.
8. Post Event:
 - a. Clean AED using manufacturing recommendations.
 - b. Return AED to designated location.
 - c. Contact System Coordinator (Assigned by Superintendent) to replace any used supplies.
 - d. Complete Unusual Occurrence Report. Provide Principal and System Coordinator with a copy.
 - e. If needed, Administrators may arrange an informal debriefing with the local counselors.

Authorized AED Users: The AED may be used by any trained staff or volunteer responder who has successfully completed an approved CPR/AED training program. Trained staff members should have a refresher course every two years.

Location of AED's: The AED will be at designated locations. These locations shall be specific to each school but should allow the device to be easily seen by staff. The location should allow staff members to retrieve the device outside of normal school hours. AEDs are not to be removed from the school campus.

Routine Maintenance: The principal or designee will check the AED monthly and initial the attached checklist. The principal or designee will contact the Program Coordinator (assigned by Superintendent) of any problems noted.

10.9 CPR

In order to meet the CPR requirements for students and staff, the DeKalb County Board of Education has signed an agreement to become an American Heart Association training site under the training center of Northeast Alabama Community College. The American Heart Association program manual and updates will be followed along with the guidelines set by the NACC Training Center.

The Superintendent of Education will select a coordinator for the training site. CPR Instructors will be selected and trained from each school as needed.

Fees for CPR Classes will be as follows:

- a. Students in High School Health classes will be charged a \$20.00 lab fee.
- b. Students in Health Sciences classes at the Career Tech School will be charged a \$5.00 lab fee.
- c. Staff requesting or requiring CPR certification will be charged a \$5.00 fee.
- d. Substitutes, Volunteer Coaches, and others who are considered non-employees, but have been approved by the DeKalb County Board of Education will be charged a \$10.00 fee.
